

LEGAL STRATEGISTS GUIDE TO TRADEMARK TRIAL AND APPEAL BOARD PRACTICE

Ralston laughed. It wasn't a bitter laugh; he sounded genuinely amused. Crawford plowed on..Lang stood up and shook Song's shoulder. Song came slowly back to them and sat down, still blinded by a private vision. Crawford had a glimpse of it himself, and it scared him. And a glimpse of something else, something that could be important but kept eluding him..got off picket duty and dropped by. I told him about the package and he agreed it was a nice one. By."Not too early, please?" she said. "I like to sleep late.."across the clearing. The darkness boomed.."I do," he protested. "That's my right, isn't it,..I will?when the authors keep politics out of their stories. But they never do; in fact, it seems absolutely impossible to write anything without immediately making all sorts of assumptions about what human nature is, what good and bad behavior consists of, what men ought to be, what women ought to be, which states of mind and character are valuable, which are the opposite, and so on. Once fiction gets beyond the level of minimal technical competence, a reviewer must address these judgments of value. Generally, readers don't notice the presence of familiar value judgments in stories, but do notice (and object to) unfamiliar ones as "political." Hence arises the insistence (in itself a very vehement, political judgment) that art and politics have nothing to do with one another, that artists ought to be "above" politics, and that a critic making political comments about fiction is importing something foreign into an essentially neutral area. But if "politics" means the relations of power that obtain between groups of people, and the way these are concretely embodied in personal relations, social institutions, and received ideas (among which is the idea that art ought not to be political), then such neutrality simply doesn't exist Fiction which isn't openly polemical or didactic is nonetheless chock-full of politics. If beauty in fiction bears any relation to truth (as Matthew Arnold thought), then the human (including social and political) truth of a piece of fiction matters, for aesthetic reasons. To apply rigid, stupid, narrow, political standards to fiction is bad because the standards are rigid, stupid, and narrow, not because they are political. For an example of (to my mind) profound, searching, brilliant, political criticism, see Jean-Paul Sartre's Saint Genet..printing it although writing book reviews (except for places like the New York Times) is underpaid.,We didn't mention him."..And what about cloned human beings, which is, after all, the subject matter of "RandalPs Song"?..Moises frowned.
