

A BOOK OF BALLADS FROM THE GERMAN

A smiling waitress. The cashier at the register, looking over a pair of half-lens reading glasses. A. "She ought to've been paid to take it. Anyway, they put old Sinsemilla in an institution once and shot like. He had a bone to chew with Fate, and he gnawed at it even though he knew that of the two of them, because for the first time ever, he had the feeling that he was somebody-- not just "Sergeant, U.S. Army, or "Serial Number 5648739210," or "White, Anglo-Saxon, Male," but "Steve Colman, Individual, Unique Product of the Universe." Chapter 24. Nevertheless, for reasons that she could not understand, every aspect of this day? the spangled little gravy. We'll put it in a takeout dish, and give it to you for nothing because we just love doggies. "Sure." Sirocco tossed up a gauntleted hand as if the answer were obvious. "Guys who don't like it but have to do it get mad. They can't get mad at the people who make them do it, so they take it out on the enemy instead. That's what makes them good. But the guys who like it take too many risks and get shot, which makes them not so good. It's logical." "It doesn't matter," Colman told him. "It's different in different places. It might be the best hunter in the village or the guy who's killed the most lions. It might be the way you paint your face. Through most of history it's been money. What you buy with it isn't important. What's important is that the things you buy say to all the other guys, 'I've got what it takes to earn what you have to, to buy all this stuff, and you haven't. Therefore I'm better than you.' That's what it's all about." "For being a good soldier and a lousy citizen." Anita's eyes blazed as her shock began wearing off and dissipated itself as anger. "Why should I? Bruce just got killed and Dave's got a hole in his leg, and you're telling me to see it their way? What kind of a man are you anyhow?" She sneered past Colman's shoulder at Kath, who was returning the communicator to her pocket. "I can see why. It didn't take you long, did it? Is she good?" "What're you doin' here, boy?" had three and only three possible permutations. It explained why leptons were "white" and did not react to the strong force: There was only one possible permutation of UUU or EEE. And it explained why the electrical charges on quarks and leptons were equal: They were carried by the same tweedles. Also, further studies of "tweedledynamics" enabled the first speculations about what had put the match to the Big Bang. "I might just do that," Fallows said, nodding slowly. "Yeah I could use being out and about for a few hours. Thanks for the tip." Paula was looking at him impishly. "Do you think you could beat mine?" she asked in a curious voice. it. When he pulls a lever without paying, the machine won't give him a packet of Trojans, whatever they. While the SD commander moved his men back to form a cordon blocking off the intersection, Sirocco ordered his squad to take up clubs and riot shields. As the soldiers took up a defensive formation on one side of the Street, the crowd surged forward along the other in a rush toward the intersection. Sirocco shouted an order to head them off, and the squad rushed across the Street to clash with the mob halfway along the block. Half the Army seemed to have converged on the west gate, where a group of escapees had been run to ground and were shooting it out. When the confusion was at its peak, a series of thunderous explosions blanketed the Detention Wing and the depot with smoke. When the smoke cleared, one of the transporters was gone. No one had been guarding the motor pool. Sirocco looked worried. "Look, there is a force on its way forward to occupy the nose. We want to avoid any senseless bloodshed. Those locks must be kept open. I have General Borftein, who wishes to speak directly to whoever is in charge there." "Oh, yes, Gaulitz definitely. I've plans for Herr Gaulitz." "A government job?" three victims were savagely assaulted, perhaps tortured, all dead before the fire was set, then the names. gangs? was the injunction against settling grudges by committing violence on family members who. In the bathroom though the far door of the bedroom behind the lounge, Veronica was already stripping off her fatigues and boots, which she then stowed beneath the towels in the linen closet. By the time the outside door to the suite finally closed to cut off the noises from the house and envelop the rooms in silence, she was putting on the flight-attendant's uniform except for the shoes. After that she used Celia's things to attend to her makeup. she had rudely presumed to monitor and restrict Micky's use of alcohol. At least some of the population would hear it . . . the word would soon be spread. . . , I don't know . . . whatever would bring word to the mod people in the shortest time for greatest effect." She didn't seem to be in physical pain, after all. She might have been working off excess energy in a. him to a table. Fortunately, he is seated with his back toward the entrance. With his cap still on, he. Although Casey and Barbara remained outwardly cordial and polite, they were making no attempt to disguise the fact that they felt the same way. Colman realized that for the first time he was seeing Chironians with the gloves off. All the warmth, exuberance, and tolerance that had gone before had been genuine enough, but beneath it all lay more deeply cherished values which came first, no matter who made the pleas. On that, there could be no concessions. "Which one is that?" Leon asked from the screen, sounding dubious but also interested. without dog, glides past the distracted hostess. Her palms were damp. You're a child because you don't yet have boobs." Bernard gave a pained smile. "It sounds good," he agreed. "But the Directorate might have a few things to say." "They could dock shuttles at the ports in the Battle Module and come through the Spindle," someone pointed out. One of the figures was a bearded, dark-haired man whom Colman recognized as Leon, sitting alongside a brown skinned woman identified by the caption at the bottom of the picture simply as Thelma. So at least some of them were located at the arctic scientific establishment in northern Selene, Colman thought to himself. The other pair of figures were Otto, of Asiatic appearance, and Chester, who was black; the ones shown alone in the remaining two sections of the screen were Gracie, another Oriental, and Smithy, a blond Caucasian with a large moustache and long sideburns. From their ages they were all evidently Founder. Kath introduced each of them in turn without mentioning titles, responsibilities, or where any of them were, and the Terrans didn't ask..whipping tail. . The dog whimpers..Celia managed a smile. Sirocco had seen no reason to mention to the troops her part in the Howard Kalens affair and had told them simply that the object of the exercise was to broadcast some new facts which would be enough to put an end to Sterm. "Fm not sure what Fm supposed to say," she told Hanlon. "I'll never be able to thank you both enough. I think I'm beginning to see a whole new world of people that I never imagined existed." Micky glanced back at the trailer, where Leilani stood in the open doorway, silhouetted against faint."Like what?" Nanook asked..distinction didn't matter as much to her as did the discovery that she, like Sinsemilla, could lose control of.They stopped by a small open square, enclosed on three sides by buildings with striped canopies over their many balconies and flowery windows. A preacher from the Mayflower II, evidently anxious to make up for twenty years of lost time, was belaboring a mixed audience of Chironians from the corner of a raised wall surrounding a bank of shrubbery. He seemed especially incensed by the evidence of adolescent parenthood around him, existing and visibly imminent. The Chironians appeared curious but skeptical. Certainly there were no signs of any violent evangelical revivals about to take place, or of dramatic instant conversions among the listeners..But the story unraveled in the course of the morning by the subsequent interrogations gave no grounds for relief. Apparently the leader of the west gate group, a Private Davis, had been told by Padawski that the west gate would be the rallying point for a rush to the motor pool. Either Davis had been set up to draw the hunt away deliberately or Padawski had changed his plans at the last minute. Nobody else had shown up at the west gate, and Davis's group had been left stranded. But only a few more were in the transporter when it landed, and Padawski was not among them. They claimed that after they had seized the aircraft, Padawski had radioed them to get away while they could because he was pinned down with the main party by the Omar Bradley Block. But Sirocco had had the Omar Bradley Block well covered and secured throughout, and nobody had been near it. And somewhere in the middle of it all, Padawski and twenty-three others, all heavily armed, had melted away..She hadn't cried since childhood. She'd thought that she was beyond tears, too tough for self-pity and. These two are the enemy, not the clean-cut ordinary citizens whom they appear to be. No doubt about. The "market," as Jay had described it, was situated several levels above the terminal. To get to it they used a series of escalators. A lot of people were milling about, came at hand; half measures were fatal. The shorter-term price to be paid was regrettable, but when had Nature ever offered free lunches? And in the longer term, what did it mean anyway? The Soviets had taken twenty million casualties in World War II and emerged to fight World War III three-quarters of a century later. And in that conflict the U.S. had lost an estimated hundred million, yet had restored itself as a major power in less than half the time. At best the sentimentalities of politicians and misguided idealists underestimated the resilience of the race, and at worst, by tempting aggressors with the lure of easy pickings, precipitated the very wars that they deplored. Would Hitler have rampaged so blithely across Europe if Chamberlain had gone to Munich with ten wings of heavy bombers standing behind him across the English Channel? And when all the hackneyed words were played and spent, hadn't everything worthwhile in history been gained in the end by its generals?. He still retained some staunch adherents, mainly among those who had nowhere else to turn and had drawn together for protection: Among them were a sizable segment of the commercial and financial fraternity who were unable to come to terms with an acceptance that their way of life was finished; the Mayflower II's bishop, presiding over a flock of faithful who recoiled from abandoning themselves to the evil ways of Chiron; many from every sector of."How do you know there's no one around?". the boy treats them with equal courtesy, although he knows that they may be either ministers or. Therefore I owe you a maximum of three months. Okay, I'm giving it. But I also have more than three months of accumulated leave from the voyage, which I'm commencing right now. You'll have that confirmed in writing within five minutes." He stood up and walked to the door. "And you can tell Accounting not to worry too much about the back pay," he said, looking back over his shoulder. "I won't be needing it."."You wouldn't believe some of the things I can remember," Abdul grunted as they began walking again. "Darned machines... always did just what we told 'em. For a time we thought they were pretty stupid; but it turned out it. Celia nodded. "That evening, as soon as I got up to the ship. I think I must have been hysterical or something. But yes, I told him."."I heard a woman in the market who said that dead people talk to her," Susie told him. "That's even more ridiculous." Sinsemilla, she'd have this third snake to worry about. "Well, it sounds pretty final, I guess..".You'd better mean it," Shirley warned. "There's nothing worse than trying to spend money you don't have. It's like stealing from people..Lechat allowed a few seconds for the mood to pass, then rose to his feet again. "My first resolution is that all claims, rights, and legislations previously enacted with respect to the Territory of Phoenix be revoked in their entirety, that the proclamation of that Territory as being subject to the jurisdiction of this Congress be repealed, and that the area at present referred to as Phoenix be formally reverted to its previous condition in all respects..".Kath suggested a place in town called The Two Moons, which was where she and her friends usually went for entertainment and company, and was just the right distance for a refreshing walk on an evening like this. On the way they passed the house that Colman and his companions had stopped by earlier in the day, which prompted him to mention the painter's robot. "It looked as if it was learning the trade," Colman said..west to action in the east..".I know," Kath told him. "He's through to Otto 'and Chester as well via one of our relay satellites. It's a three" way hookup..".Sinsemilla had been struck mute by either the unexpected outcome or the spectacle..".There wasn't anything that Veronica could have done," Celia went on, "I wasn't looking for someone to unload a guilt-trip on. What I had to say was a lot bigger than that. The mind of the man who is now in control up there is as dangerous as it's possible to get-abnormally intelligent, in full command of all its faculties, and totally insane. Stern believes himself to be infallible and invincible, and he'll stop at nothing. He's holding what's left of the Army because he has succeeded in selling them a lie. And I was the only person who could expose that lie. There won't be any autopsy revelations-the body has already been cremated." Celia looked briefly at each of them in turn and was met by appalled stares as they saw what Colman had already seen a few seconds before..CHAPTER FIVE.Can you say sitting duck?..".You said you've only got until your next birthday, and then all bets are off..".Past the galley and dining nook lies a combination bathroom and laundry. Lechat asked across the table. He was a slightly built man of average height, in his late forties, with thinning hair and a dry, pinkish complexion. Tide..rarity..Not that this did much to foster the kind of obedience that the Army sought to elicit, but then Sirocco usually had his own ideas about the kinds of things that needed to be done, which more often than not differed appreciably from the army's. Good officers worried about their careers and about being promoted, but Sirocco seemed incapable of taking the Army seriously. A multibillion-dollar industry set up for the purpose of killing people was a serious enough business, to be sure, but Colman was convinced that Sirocco, deep down inside, had never really made the connection. It was a game that he enjoyed playing. And because Sirocco refused to worry about them and wouldn't take their game seriously, they had given him D Company, which, as it turned out, suited him just fine too..Noah stopped, dismayed. "The Chironians are into a whole new world of particle theory. That means they can produce lots of antimatter economically. I've got to think..".True," Hermann, the young man in the white labcoat, agreed. "But on top of that, parts of this place are used as a school to give the kids early off-planet experience. They settled themselves down to wait, and Fuller and Canon lit cigarettes. "Still think it'll go okay, Sarge?" Stanislaw asked. "I could do a quick hair-job in there." He had brought the things with him, just in case..The screen before him suddenly came to life to show her face. A flicker of surprise danced in her eyes for the merest fraction of a second, and then gave way

to a smoldering twinkle of anticipation mixed with a dash of amusement.. "I still don't understand the politics behind it all though," he said to the two Chironians who were accompanying him and Jay toward the cafeteria in the Administration Building in front of the main reactor site, where they were due to have lunch. One of them was a young Polynesian named Nanook, who worked with control instrumentation; the other was a slightly younger, pale-faced blonde called Juanita, who dealt with statistics and forecasts and seemed to be more involved with the economic side of the business. Kath herself had taken her leave earlier, explaining that she was expecting another party of visitors. Bernard spread his hands in an imploring gesture. "I mean... who owns the place? Who decides the policies for running it?". Looking down at her tortured hands, Geneva said, "Why didn't you come to me back then, Micky?". Hanlon shook his head. "Ah, why be vindictive? We got her off and sent them all on their way. They're probably in Franklin by now, looking for the fastest way out of town.". This evening wasn't about Micky Bellsong, anyway, not about what she wanted or whether she was the day. .incoherently, believed herself to be a more delicate and exquisite flower than any hothouse orchid.. As a temporary barracks for the military force based on the surface, the Chironians had made available a recently completed complex of buildings designed as a school, which was intended for occupation later as Canaveral City expanded. It comprised a main administrative and social block, which the Army was using mainly for administrative and social purposes; an assortment of teaching and residential blocks, most of which were being used for billeting the troops, with part of one serving as a Detention Wing; a gymnasium and sports center which had become the stores, armory, and motor pool; and a communal dining hall which was left unaltered.. won't draw the man's attention as much as will the movement of the door closing.. "I'm not that hung up about it," Colman insisted, not for the first time. "Maybe it is like some of the guys think, and maybe it's not. Anyhow, there can't be one left our age who isn't a great-grandmother already. Look at the statistics .". Good pup. Stay close.
