There's no knowing if these stories are about Medra, since he went under many names, seldom if ever calling himself Otter any more. Gelluk's fall had not brought Losen down. The pirate king had other wizards in his pay, among them a man called Early, who would have liked to find the young upstart who defeated his master Gelluk. And Early had a good chance of tracing him. Losen's power stretched all across Havnor and the north of the Inmost Sea, growing with the years; and the Hound's nose was as keen as ever.."We can't do anything without each other," he said. "But it's the greedy ones, the cruel ones who hold together and strengthen each other. And those who won't join them stand each alone." The image of Anieb as he had first seen her, a dying woman standing alone in the tower room, was always with him. "Real power goes to waste. Every wizard uses his arts against the others, serving the men of greed. What good can any art be used that way? It's wasted. It goes wrong, or it's thrown away. Like slaves' lives. Nobody can be free alone. Not even a mage. All of them working their magic in prison cells, to gain nothing. There's no way to use power for good." "So, to be blunt about it, if you have this gift, Diamond, it's of no use, directly, to our business. It has to be cultivated on its own terms, and kept under control -- learned and mastered. Only then, he said, can your teachers begin to tell you what to do with it, what good it will do you. Or others," he added conscientiously..Diamond sat upright and still. A BOAT-SONG FROM WEST HAVNOR. "No, it's impossible," I insisted. "What about people with dangerous jobs? After all, they." "That's something else." "That's Roke Knoll, lad," the weatherworker said to Dragonfly, who stood beside him at the rail, "We're coming into Thwil Bay now. Where there's no wind but the wind they want." "Do you trust me, Dragonfly?" his power was gone, he was not a mage. So presently the Masters of Roke met to choose a new. with them in his own way, in his own time. How to make light. I have to remember. I have to remember the habit established over many years, an old instinct, that told me that at a certain moment we were. He still stood there, and she said, "Look at the peaches! They're all ripe. We'll have to eat them right away." They held each other tight, hard, silent for a long time. Will it take a long time to find one to take us, do you think?" bower upstream, he went there, carrying Veil's basket as an excuse. "May I talk to you?" he said. "What is?" The boy was in fact a workman of the first order, carpenter, cabinetmaker, stonelayer, roofer; he had proved that when he lived up here as Dulse's student, and his life with the rich folk of Gont Port had not softened his hands. He brought the boards from Sixth's mill in Re Albi, driving Gammer's ox-team; he laid the floor and polished it the next day, while the old wizard was up at Bog Lake gathering simples. When Dulse came home there it was, shining like a dark lake itself. "Have to wash my feet every time I come in," he grumbled. He walked in gingerly. The wood was so smooth it seemed soft to the bare sole. "Satin," he said. "You didn't do all that in one day without a spell or two. A village hut with a palace floor. Well, it'll be a sight, come winter, to see the fire shine in that! Or do I have to get me a carpet now? A fleecfell, on a golden warp?" "Yes," said the Patterner. "What goes too long unchanged destroys itself. The forest is for ever because it dies and dies and so lives. I will not let this dead hand touch me. Or touch the king who brought us hope. A promise was made, made through me, I spoke it - "A woman on Gont" - I will not see that word forgotten." He did as he often did, made a little design out of whatever lay to hand: on the bit of sand on had had no one in her life to desire. When the young wizard first came riding by so slim and Gelluk's white face had gone whiter; his jaw trembled a little. He stood up, suddenly, as he always did. "Take me there," he said, trying to control himself, but so violently compelling Otter to get up and walk that the young man lurched to his feet and stumbled several steps, almost falling. Then he walked forward, stiff and awkward, trying not to resist the coercive, passionate will that hurried his steps. fate had shaken him. He asked Birch about the place. "That's Iria," Birch said - "Old Iria, I mean to say. I own the house by rights. But after a century of feuds and fights over it, my granddad let the place go to settle the quarrel. Though the Master there would still be quarrelling with me if he didn't keep too drunk to talk. Presently he got up, and she followed him to the path that always led them, sooner or later, out of the wood to the clearing by the Thwilburn and the Otter's House. When they came there, it was late afternoon. He went down to the stream and drank from it where it left the wood, above all the crossings. She did the same. Then sitting in the cool, long grass of the bank, he began to speak. south road on a good horse and asking at the tavern for lodging. They sent him to Sans house, but. But Otter was intensely aware of Gelluk, both physically and as a presence of immense controlling power; and it seemed to him that Anieb's speaking had taken away that much of Gelluk's power over him, gaining him a place to stand, a foothold. A moment later a thunderclap rolled off the hidden upper slopes of Gont Mountain, echoing round from north to south, dying away in the cloud-filled forests..It was hard work out in the pastures. "Who doesn't do hard work?" Emer had asked, showing her round, strong arms, her hard, red hands. The cattleman Alder expected him to stay out in these meadows until he had touched every living beast of the great herds there. Alder had sent two cowboys along. They made a camp of sorts, with a groundcloth and a half tent. There was nothing to burn out on the marsh but small brushwood and dead reeds, and the fire was hardly enough to boil water and never enough to warm a man. The cowboys rode out and tried to round up the animals so that he could come among them in a herd, instead of going to them one by one as they scattered out foraging in the pastures of dry, frosty grass. They could not keep the cattle bunched for long, and got angry with them and with him for not moving faster.
