Starving hungry, frustrated, misunderstood, Diamond reached out to hold her again, to make her body understand his body, repeating that first, deep embrace that had held all the years of their lives in it. He found himself standing two feet back, his hands stinging and his ears ringing and his eyes dazzled. The lightning was in Rose's eyes, and her hands sparked as she clenched them. "Never do that again," she whispered.. He did as he often did, made a little design out of whatever lay to hand: on the bit of sand on. butterflies, wooden birds that flew on living wings for a minute or two. The girl leaned up against the ewe, and the ewe leaned against the girl, giving and receiving comfort. Rose extracted, dropped, and spat on the last maggot, and said, "Just hand me that bucket now." She bathed the sore with salt water. The ewe sighed deeply and suddenly walked out of the yard, heading for home. She had had enough of medicine. "Bucky!" Rose shouted. A grubby child appeared from under a bush where he had been asleep and trailed after the ewe, of whom he was nominally in charge although she was older, larger, better fed, and probably wiser than he was.. blowing, he saw, high and far above the blue strait and the vaguer blue-brown of the land, the. Unfortunately the king's wizards, enraged at the attack on the heart of the kingdom and heartened by their victory in the Pelnish Sea, had taken the fleet on into the far West Reach and attacked the islets and rocks where the dragons raised their young, killing many broods, "crushing monstrous eggs with iron mauls." Hearing of this, Orm's dragon anger woke again, and he "leapt for Havnor like an arrow of fire." (Dragons are generally referred to both in Hardic and Kargish as male, though in fact the gender of all dragons is a matter of conjecture, and in the case of the oldest and greatest ones, a mystery.). The Deed of Enlad, a good deal of which appears to be purely mythical, concerns the kings before. And it's true that in the time of Medra and Elehal the people of Roke, men and women, had no fear of the Old Powers of the earth, but revered them, seeking strength and vision from them. That changed with the years.. "You take care," the witch said, grim. "Everything's perilous, right enough, and meddling with. She thought about the School, where she had been so briefly. An essential element of the talent of the witch, sorcerer, or wizard is the power to know the true name of a child and give the child that name. But it was worth the chance, he thought; he was bored out.Later he knew he should never have let the boy leave the house. He had underestimated Diamond's willpower, or the strength of the spell the girl had laid on him. Their conversation was in the morning; Hemlock went back to the ancient cantrip he was annotating; it was not till supper time that he thought about his pupil, and not until he had eaten supper alone that he admitted that Diamond had run away.. He rode past Old Iria regularly. He tried stopping in the village at the foot of the hill to ask questions, but there was nowhere to stop and nobody would answer questions. A wall-eyed witch took one look at him and scuttled into her hut. If he went up to the house he would have to face the pack of hellhounds and probably a drunk old man. But it was worth the chance, he thought; he was bored out of his wits with the dull life at Westpool, and was never slow to take a risk. He rode up the hill till the dogs were yelling around him in a frenzy, snapping at the mare's legs. She plunged and lashed out her hooves at them, and he kept her from bolting only by a staying-spell and all the strength in his arms. The dogs were leaping and snapping at his own legs now, and he was about to let the mare have her head when somebody came among the dogs shouting curses and beating them back with a strap. When he got the lathered, gasping mare to stand still, he saw the girl as beautiful as a flowering tree. She was very tall, very sweaty, with big hands and feet and mouth and nose and eyes, and a head of wild dusty hair. She was yelling, "Down! Back to the house, you carrion, you vile sons of bitches!" to the whining, cowering dogs.."I don't know," the Herbal said. "I can only tell you that when I'm with him, when I'm in the Great House, I feel that nothing can be done but what has been done. That nothing will change. Nothing will grow. That no matter what cures I use, the sickness will end in death." He looked around at them all like a hurt ox. "And I think it is true. There is no way to regain the Equilibrium but by holding still. No, wait -- the other thing is more important. Brit is not milk. I don't.He had not planned or intended any such adventure, but crazy as it was, it suited him better the more he thought about it. The prospect of spending the long grey winter at Westpool sank his spirits like a stone. There was nothing here for him except the girl Dragonfly, who had come to fill his thoughts. Her massive,

innocent strength had defeated him absolutely so far, but he did what she pleased in order to have her do at last what he pleased, and the game, he thought, was worth playing. If she ran away with him, the game was as good as won. As for the joke of it, the notion of actually getting her into the School on Roke disguised as a man, there was little chance of pulling it off, but it pleased him as a gesture of disrespect to all the piety and pomposity of the Masters and their toadies. And if somehow it succeeded, if he could actually get a woman through that door, even for a moment, what a sweet revenge it would be! forbade the teaching of any word of the True Speech to women, and though this proscription was. What did it matter if he was mad? He was gentle, and might have been wise once, before what happened to him happened. And he wasn't so mad as all that. Mad in patches, mad at moments. Nothing in him was whole, not even his madness. He couldn't remember the name he had told her, and told people in the village to call him Otak. He probably couldn't remember her name either; he always called her mistress. But maybe that was his courtesy.
