After a while Ayo said, "She went down to Firn with some of the young folk. To buy fleece from the shepherds there. A year ago last spring. That wizard they spoke of came there, casting spells. Gelluk was sure that without him Losen's rubbishy kingdom would soon collapse and some enemy mage would rub out its king with half a spell. But he let Losen act the master. The pirate was a convenience to the wizard, who had got used to having his wants provided, his time free, and an endless supply of slaves for his needs and experiments. It was easy to keep up the protections he had laid on Losen's person and expeditions and forays, the prisoning spells he had laid on the places slaves worked or treasures were kept. Making those spells had been a different matter, a long hard work. But they were in place now, and there wasn't a wizard in all Havnor who could undo them.. will be yours," he said, with an open laugh, so that Losen stared at him in a kind of horror.. "Dragons have been seen flying above the Inmost Sea. Roke has no Archmage, and the islands no true-crowned king. There is real work to do," the Summoner said, and his voice too was like stone, cold and heavy. "When will we do it?".. Thirty years before, the pirate lords of Wathort had sent a fleet to conquer Roke, not for its wealth, which was little, but to break the power of its magery, which was reputed to be great. One of the wizards of Roke had betrayed the island to the crafty men of Wathort, lowering its spells of defense and warning. Once those were breached, the pirates took the island not by wizardries but by force and fire. Their great ships filled Thwil Bay, their hordes burned and looted, their slave takers carried off men, boys, young women. Little children and the old they slaughtered. They fired every house and field they came to. When they sailed away after a few days they left no village standing, the farmsteads in ruins or desolate.. "Go on, Deyala. I'll stay here." No. There had been a thunderclap, a while ago. This was not thunder. He had had this queer feeling. He was angry then, very angry, a hungry man whose food is snatched from his hand. He summoned the man Tern to reappear, but he did not know his true name and had no hold of heart or mind on him. The summons went unanswered. The wizard stepped forward. "I come," he said in his joyous, tender voice, and he strode. "If I lie down I won't get up. I want to see the Mountain." the world, there are still women of the Hand. For a half millennium or longer, men ambitious to work the great spells of magery bound themselves to absolute chastity, enforced by self-cast spells. At the school on Roke, the students lived under this spell of chastity from the time they entered the Great House and, if they became wizards, for the rest of their lives. sprang up out of it and ran across the wizard's feet. "I don't know," Dragonfly said. "To hear about the Great House is wonderful, but I thought the people there would be - I don't know. Of course they're mostly just boys when they go there. But I thought they'd be..." She gazed off at the sheep on the hill, her face troubled. "Some of them are really bad and stupid," she said in a low voice. The Windkey stood silent, but the group of men muttered, angry, and some of them moved forward. Azver came between her and them, her words releasing him from the paralysis of mind and body that had held him. "Tell Thorion we will meet him on Roke Knoll," he said. "When he comes, we will be there. Now come with me," he said to Irian. King Maharion himself, the story says, journeyed to Selidor to "weep by the sea." It was a wet, cold time, and firewood was one thing they had plenty of, here on the mountain. "It always seemed to me they're sort of alike," he said, "magic and music. Spells and tunes. For one thing, you have to get them just exactly right." "What is a moot?" heifer follows him about like a puppy."
