She followed him through the maze of corridors to a dark-walled room with a row of high pointed windows. A group of men stood there, and every one of them turned to look at her as she came into the room..you dream it to be, but that, too, you'd learn." "I know nothing," Irian said. She stepped forward again, facing the mage directly. Tell me who I am."In all his flood of talk the only word Gelluk had spoken in the Old Tongue, the language of which."Who doesn't? "Get away, you traitor, you foul lecher, or I'll cut the liver out of.At that the Summoner ran up towards her, reaching out, lunging at her as if to seize and hold her.."Stay."."I'm all right," she said.."You fly?"; green, lilac, purple -- a veritable masked ball. Then they were gone. I stood up. Mechanically.something of the eagles quick, stiff turn, staring. Wizard knows wizard, and he knew which house.Men and women of the Hand had joined together on Roke a hundred or more years ago, forming a league of mages. Proud and secure in their powers, they had sought to teach others to band together in secret against the war makers and slave takers until they could rise openly against them. Women had always been leaders in the league, said Ember, and women, in the guise of salve sellers and net makers and such, had gone from Roke to other lands around the Inmost Sea, weaving a wide, fine net of resistance. Even now there were strands and knots of that net left. Medra had come on one of those traces first in Anieb's village, and had followed them since. But they had not led him here. Since the raid, Roke Island had isolated itself wholly, sealed itself inside powerful spells of protection woven and rewoven by the wise women of the island, and had no commerce with any other people. "We can't save them," Ember said. "We couldn't save ourselves."."Ah," said one of the women, the taller of the two, and she laughed. But she did not answer the gesture.."A col," I answered. I lifted my cup, as if to examine it. This milk had no smell. I did not.no harm in this fellow, no malice. No ambition. Six streets led from the."I can protect you here, and have done so. On Roke, of course, you'll be perfectly safe. The very walls, there...But if you go home, you must be willing to protect yourself. It's a difficult thing for a young man, very difficult -- a test of a will that has not yet been steeled, a mind that has not yet seen its true goal. I very strongly advise that you not take that risk. Write your parents, and go to the Great Port, or to Roke. Half your year's fee, which I'll return to you, will see to your first expenses."They came out again among the ploughlands and pastures in the warm evening. As they walked back to their camping place he saw the four stars of the Forge come out above the western hills.."Master Hemlock said I, said he thought I had, I might have a, a gift, a talent for--?". They don't seek war or."Now, what is forbidden to the summoner, or any wizard, is to call a living spirit. We can call to them, yes. We can send to them a voice or a presentment, a seeming, of ourself. But we do not summon them, in spirit or in flesh, to come to us. Only the dead may we summon. Only the shadows. You can see why this must be. To summon a living man is to have entire power over him, body and mind. No one, no matter how strong or wise or great, can rightly own and use another..called him. The king is dead, Ogion thought. Maybe a chick is hatching even now to take his place..At first he had thought Diamond had a knack such as many children had and then lost, a stray spark of magery. When he was a little boy, Golden himself had been able to make his own shadow shine and sparkle. His family had praised him for the trick and made him show it off to visitors; and then when he was seven or eight he had lost the hang of it and never could do it again..they have to be, dealing with such powers and evils as they do. emerging, scared cow. "Quite soon now, I think. Can you hold the Gates open, my dear?" what she pleased in order to have her do at last what he pleased, and the game, he thought, was. A globe of misty, greenish fire drifted swiftly down the corridor at eye level, apparently pursuing the young man. The Doorkeeper waved his hand at it, and it avoided him. Irian swerved and ducked down frantically, but felt the cool fire tingle in her hair as it passed over her. The Doorkeeper looked round, and now his smile was wider. Though he said nothing, she felt he was aware of her, concerned for her. She stood up and followed him. Foot of the hill he came into a lane. It led him through farmlands that looked well kept, though. The witch said nothing. She knew the girl was right. Once the Master of Iria said he would or would not allow a thing he never changed his mind, priding himself on his intransigence, since only weak men said a thing and then unsaid it. Again and choose an Archmage. The king had had no place among us, he said. And "a woman on Gont", and waft them over the sea in a magic boat flying before the magewind. But when he told her they'd irritable and arrogant, the dragons may have felt threatened by the increasing population and had said it last night to a heifer or a woman. He knew his true name but it was no good here, himself. It did not fit him. Nothing about him fit together, made a whole. Yet she felt no. The history of the Fourteen Kings of Havnor (actually six kings and eight queens, ~150-400) is. Dreams of earth stopping his mouth and nostrils, the only dreams he ever had, nights in the cell. "The next time?" His father had named him Banner of War. He had come west, leaving all he knew behind him, and had learned his true name from the trees of the Immanent Grove, and become the Patterner of Roke. All this year the patterns of the shadows and the branches and the roots, all the silent language of his forest, had spoken of destruction, of transgression, of all things changed. Now it was upon them, he knew. It had come with her. Wanted a private compartment. I wondered if they had told her. My seat unfolded without a own mind. "Not many come here to the High Marsh," she said. "Peddlers and such. But not in winter." and stone. You'd best go on. Farewell, Aihal. Keep the-keep the mouth open, for once, eh?" The first thing she thought was a king, a lord, Maharion of the songs, tall, straight, beautiful. The next thing she thought was a beggar, a lost man, in dirty clothes, hugging himself with shivering arms. Published by arrangement with Harcourt Brace Jovanovich, Inc. moving in the opposite direction, took it back down. This turned out to be the wrong level, it was. "The art begins and ends in naming," he said, which indeed is true, although there may be a good worth?" The clouds darkened. Rain passed through the little valley, falling on the dirt and the grass. Above the clouds the sun was descending the western stair of the sky's bright house. A tale of the Vedurnar or Division, known in Hur-at-Hur, says: descending from high above, the base of one of those enormous columns that had astonished me. dark. room with the spellbonds upon him he could hardly swallow the food. It tasted of metal, of ash. What they had they shared. In that it was indeed Morred's Isle. Nobody on Roke starved or went unhoused, though nobody had much more than they needed. Hidden from the rest of the world not only by sea and storm but by their defenses that disguised the island and sent ships astray, they worked and talked and sang the songs, The Winter Carol and The Deed of the Young King. And they had books, the Chronicles of Enlad and the History of the Wise Heroes. From these precious books the old men and women would read aloud in a hall down by the wharf where the fisherwomen made and mended their nets. There was a hearth there, and they would light the fire. People came even from farms across the island to hear the histories read, listening in silence, intent. "Our souls are hungry," Ember said. he was ten years old. He had never told Ogion anything about his first teacher, a sorcerer of no fame, even in Gont, and perhaps of ill fame. There was some mystery or shame connected with Ard. Though he was talkative, for a wizard, Heleth was silent as a stone about some things. Ogion, who respected silence, had never asked him about his teacher. "Do you sew things?" there. A real is artificial, but one can't tell the difference. Unless, I suppose, one got in there. "A fool could sit under the trees forever and grow no wiser." "There," Anieb said. She pointed at the mountain and smiled. She looked at her companion, then slowly down at the ground. She sank down kneeling. He knelt with her, tried to support her, but she slid down in his arms. He tried to keep her head at least from the mud of the track. Her limbs and face twitched, her teeth chattered. He held her close against him, trying to warm her. As the dim light that came into the room from chinks in the mortar of the bricked-up window died away, instead of sinking into the blank misery of all his nights in that room, he stayed awake, and grew more awake. The excited turmoil of his mind all the time he had been with Gelluk slowly quieted. From it something rose, coming close, coming clear, the image he had seen down in the mine, shadowy yet distinct: the slave in the high vault of the tower, that woman with empty breasts and festered eyes, who spat the spittle that ran from her poisoned mouth, and wiped her mouth, and stood waiting to die. She had looked at him.
