

## DISCIPLESHIP 1 FUNDAMENTALS OF CHRISTIANITY

"Ah," said Lea, "the second question is easy to answer, but the first is not so simple. For that is the same question asked me a year and a day ago by a wizard so great and so old and so terrible that you and I need not worry about him." "Pipe down in there," said the jailor. "I'm trying to sleep." And he spread out his piece of grey canvas sail and lay down..like a mail slot, and slid the moth inside..There was a pause while she debated. "I guess so, but, please, come when you can."..He had been loitering, alone and melancholy, for the better part of an hour, eavesdropping to his right..twenty-four-year-olds are self-conscious in just that way..I walked back up the beach wondering in bemusement if I could be falling in love with two such..At intervals while dressing or looking into the bathroom mirror, he stared as if into an invisible camera and raised one finger. In his last years he wrote some poems..55.I couldn't find a morning paper at that hour closer than Western and Wilshire. The story was on page seven. Fortunately they found the body in time for the early edition. A woman named Sybil Hern\* don, age 38, had committed suicide in an apartment court on Las Palmas. (Detweiler hadn't gone very far. The address was just around the corner from the Almsbury.) She had cut her wrists on a piece of broken mirror. She had been discovered about eleven-thirty when the manager went over to ask her to turn down the volume on her television set..200."You stay around and nudge some more poems out of me. I'm feeling the wind in my sails, but I need a muse. If you give me twenty good ideas for poems, I'll give you your endorsement."..Ike and I were on picket duty when we heard that the latest bargaining session had gone Pffft! Eli..the controls with a bored and superior air, has just left the room, saying, "All right, if you know so much, do it yourself."..In a house in Cleveland, a man watches his brother-in-law in the next room, who is watching his wife."Why the hell shouldn't I??.Selene laughed. She spun across the sand in time to some music only she could hear and grinned broadly. "Poor Vestal Virgin. How shocking to be confronted with the possibility the temple of her body has been defiled."..I haven't had an indecent proposition from you in days. So I thought I'd make one of my own."..Crawford followed Lang back toward the Podkayne..short, feeling ashamed of his idea. Now that it was out in the open it seemed paltry and insignificant, little..at the same time. If both are fertilized, two children will be born who are each possessed of genetic..Steven Vtley..There was much rustling and squirming for the next few minutes as they got out of their clothes. Song brushed against Crawford in the dark and they murmured apologies. Then they all bedded down in their own bunks. It was several tense, miserable hours before anyone got to sleep..color of parrot's feathers, a yellow as pale as Chinese mustard, and a blue brilliant as the sky at eight..Song had taken one apart as well as she could. She was still shaking her head in disbelief. She had..These may never be as important as you think. The prospect of importance rests chiefly on certain misapprehensions on the part of the public. Some people, for instance, pant for clones because they think them the gateway to personal immortality. That is quite wrong."..I know. I'll call you back tomorrow." She switched the set off and sat back on her heels. "I swear, if the Earthside tests on a roll of toilet paper didn't ... he wouldn't. . ." She cut the air with her hands. "What am I saying? That's petty. I don't like him, but he\*s right" She stood up, puffing out her cheeks as she exhaled a pent-up breath..The eggs of reptiles and birds, however, are enclosed in shells, which adds to the technical difficulty. The eggs of mammals are very small, very delicate, very easily damaged. Furthermore, even if a mammalian egg has had its nucleus replaced, it would then have to be implanted into the womb of a female and allowed to come to term there..that might as well have been made of Saran Wrap. He didn't say anything, just let his eyebrows rise..afternoon everybody had heard it."..Sure," Song said, peering along his pointed finger. "Just show me the damn thing and I'll immortalize you."..Hold on, honey," Lang said dryly. "If you conceive now, I'll be forced to order you to abort. We have the chemicals for it, you know."..Not an easy woman to discourage, by the sound of it."..opportunity, working here, but it does take it out of you."..What sort of deal?..with."Nothing. Just routine." Obviously he thought I was a police detective. No point in changing his mind..The whole world has been at peace for more than a generation. Crime is almost unheard of. "He was my heart" Looking straight at him, she added, "What was his is mine by right." Her chin was up and her head held high. She reached past the hunter and pulled the knife from the door with an ease that surprised him. Gently she took down the skin. She shook it out once and smoothed the nap with her hand. Then, as if putting on a cloak, she wrapped the skin around her shoulders and pulled the head over her own.."Ob, I'm afraid it's not much good. I can usually do better. I guess I don't trust you enough. Though you're quite likable; that's another matter."..I've known the question would come, though I hadn't known who'd articulate it?her or me. At first he thought she was one of the company people?somebody's wife, daughter, sister. That afternoon, when he returned to the bungalow, he caught her staring at him again at the edge of the clearing. So he asked Moises who she was, and Moises didn't know. Apparently she'd just arrived a day or two before, paddling a crude

catamaran downriver from somewhere out of the denser jungle stretching a thousand miles beyond. She had no English, and according to Moises, she didn't speak Spanish or Portuguese either. Not that she'd, as a luxury, and about as useful as the nipples on a man's chest. But I was wrong. All the NASA people were wrong. The Astronaut Corps fought like crazy to keep you off this trip. Time enough for that on later flights. We were blinded by our loyalty to the test-pilot philosophy of space flight. We wanted as few scientists as possible and as many astronauts as we could manage. We don't like to think of ourselves as ferry-boat pilots. I think we demonstrated during Apollo that we could handle science jobs as well as anyone. We saw you as a kind of insult, a slap in the face by the scientists in Houston to show us how low our stock has fallen." There is no sign of anything wrong? no explosion, no fire, no trace of violence. When he looks up again, he sees the sails flapping, then bellying out full. The sea is rising. He looks for the boat, but now too much time has passed and he cannot find it. He returns to the ship and now reverses the time control, tracks it backward until the men are again in their places on deck. He looks again at the group standing at the rail; now he sees that the woman has a child in her arms. The child struggles, drops over the rail. Smith hears the woman shriek. In a moment she too is over the rail and falling into the sea. through. He wouldn't need the bottle any more, and he wouldn't need Nina. on, Matty. When he nodded, she sealed her helmet and started into the lock. She turned and looked speculatively at Crawford. When the sun called Brother Hart to his deerskin once again, Hinda opened the door. Silently she ushered him outside, silently watched him change, and sent him off on his silent way to the meadows with no word of farewell. Her thoughts were on the hunter, the man of the wolves. She never doubted he would come. "Won't work." I looked around to make sure I hadn't disturbed anything, turned off the bathroom light, and got in the closet, leaving the door open a crack. It was the only possible place to hide. I sincerely hoped Detweiler wouldn't need anything out of it before I found out what was going on. If he did, the only thing I could do was confront him with what I'd found out. And then what, Mallory, a big guilty confession? With what you've found out, he could laugh in your face and have you arrested for illegal entry. After the funeral I went to the Los Angeles Public Library and started checking back issues of the Times. I'd only made it back three weeks when the library closed. The LA. "On what did you base your analysis of the situational display, Sergeant?" Sirocco asked, speaking in a clipped, high-pitched voice mimicking the formal tones of Colonel Wesserman, who was General Portney's aide. He injected a note of suspicion and accusation into the voice. "Was Corporal Swley instrumental in the formulation of your tactical evaluation?" The question was bound to arise; the image analysis routines run at Brigade would have yielded nothing to justify the attack.. An alarm started in his helmet, flat and strangely soothing coming from the tiny speaker. He stood there for a moment as a perfect smoke ring of dust billowed up around the rim of the dome. Then he was running.. "Who are you?" asked Hinda. "What are you? And why do you seek the deer?" Her voice was.. often enough.. together and secured with rubber bands.
