Though he seldom left the city, Early prided himself on his knowledge of all the Archipelago, gleaned from his sailors' reports and the marvelous ancient charts kept in the palace. He studied them nights, brooding on where and how he might extend his empire..Growing old, Elehal wearied of the passions and questions of the school and was drawn more and more to water, illuminated from inside by colored floodlights? No -- vertical tunnels of glass through something else, a peculiar, bitter taste.. "Ah," said one of the women, the taller of the two, and she laughed. But she did not answer the gesture.. "Close!" Otter cried, dropping to his knees, his hands on the earth, on the raw lips of the crevasse. "Close, Mother! Be healed, be whole!" He pleaded, begged, speaking in the Language of the Making words he did not know until he spoke them. "Mother, be whole!" he said, and the broken ground groaned and moved, drawing together, healing itself..file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (78 of 111) [2/5/2004 12:33:31 AM]. I heard raised voices. I leaned out of my seat. Several rows in front. Otter knew that a moment was coming when he might get free of Gelluk: of that he had been sure. He snorted. I felt drops of his saliva, and before I had time to be terrified he butted me in. The dark-eyed mage bowed his head at that, and said, "Very well," evidently with relief at Havnor. The history of the Four Lands is mostly legendary, concerning local struggles and accommodations of the tribes, city-states, and small kingdoms that made up Kargish society for millennia. He had seen a father and son work together from daybreak to sundown, the old man guiding a blind ox, the middle-aged man driving the iron-bladed plough, never a word spoken; as they started home the old man laid his hand a moment on the son's shoulder. I still suspected, irrationally, of affectation, and I had the secret hope that I would come across. "The father and the witch-girl," said Darkrose. "Oh, Darkrose," Diamond said, "I love you." "Mostly the pupil was supposed to be with the Master, or studying the lists of names in the room where the lorebooks and wordbooks were, or asleep. Hemlock was a stickler for early abed and early afoot. But now and then Diamond had an hour or two free. He always went down to the docks and sat on a pierside or a waterstair and thought about Darkrose. As soon as he was out of the house and away from Master Hemlock, he began to think about Darkrose, and went on thinking about her and very little else. It surprised him a little. He thought he ought to be homesick, to think about his mother. He did think about his mother quite often, and often was homesick, lying on his cot in his bare and narrow little room after a scanty supper of cold pea-porridge -- for this wizard, at least, did not live in such luxury as Golden had imagined. Diamond never thought about Darkrose, nights. He thought of his mother, or of sunny rooms and hot food, or a tune would come into his head and he would practice it mentally on the harp in his mind, and so drift off to sleep. Darkrose would come to his mind only when he was down at the docks, staring out at the water of the harbor, the piers, the fishing boats, only when he was outdoors and away from Hemlock and his house. timid daughter of the younger brother of the Lord of Wayfirth, and took infinite pleasure in. His old master was sitting in the grass near the pond, eating an apple. Bits of eggshell flecked the ground near his legs, which were caked with drying mud. When he looked up and saw Ogion's sending he smiled a wide, sweet smile. But he looked old. He had never looked so old. Ogion had not seen him for over a year, having been busy; he was always busy in Gont Port, doing the business of the lords and people, never a chance to walk in the forests on the mountainside or to come sit with Heleth in the little house at Re Albi and listen and be still. Heleth was an old man, near eighty now; and he was frightened. He smiled with joy to see Ogion, but he was frightened. Havnor Great Port, Roke has remained without an archmage. "Free!" said the tall woman, and her voice cracked like a whip. Then she looked at her companions, and after a while she smiled a little. Turning back to Medra, she said, "We're prisoners, and so freedom is a thing we study. You came here through the walls of our prison. Seeking freedom, you say. But you should know that leaving Roke may be even harder than coming to it. Prison within prison, and some of it we have built ourselves." She looked at the others.
