

# INTELLIGENT OPTIMAL ADAPTIVE CONTROL FOR MECHATRONIC SYSTEMS

With a smudge of flour on one cheek, wiping her hands on a red-and-white checkered dishtowel, Agnes answered the door, saw the car in the driveway, and said, "Paul! You're not walking?". At first light, a nurse arrived to perform preliminary surgical prep on Barty. She pulled the boy's hair back and captured it under a tight fitting cap. With cream and a safety razor, she shaved off his eyebrows.. "Vomiting. I'm told it was an exceptionally violent emetic episode." "He spewed like a fire hose," Vanadium said matter-of-factly.. "When your hands are bigger," Tom agreed, "I'm sure you could. In fact, one day I'll teach you." As she clambered through the open door into Celestina's lap, the girl said, "Uncle Wally gave me an Oreo." "Why are you here?" "Where else I should be and for why? I watch you over." As the tears cleared from Agnes's eyes, she saw that Maria was sewing. A shopping bag stood to one side of the chair, and to the other side, open on the floor, a case contained spools of thread, needles, a pincushion, a pair of scissors, and other supplies of a seamstress's trade.. On his nightstand, he found an envelope evidently placed there by Hanna, after she'd taken it from his pharmacy smock, which he had given her to launder. The envelope contained the letter about Agnes Lampion that Paul had written to Reverend White in Oregon.. "You figure all this," Jolene asked, "because Mother Nature gives us a nice warm day in January?". We have inhabited both the actual and the imaginary realms for a long time. But we don't live in either place the way our parents or ancestors did. Enchantment alters with age, and with the age.. The January air was crisp, fragrant with evergreens and with the faint salty scent of the distant sea. A curiously yellow moon glowered like a malevolent eye, studying him from between ragged ravelings of dirty clouds.. "I already told you-anything in your heart is as easy to read as the open page of a book." Only a dishonest or delusional man, however, could justify Victoria's killing as self-defense. To a degree, he'd been motivated by anger and passion, and Junior was forthright enough to admit this.. or the barber. Never was he afraid to fall asleep, and having fallen asleep, he appeared to have only pleasant dreams.. "September 27, 1962. Barcelona, Spain. A flood killed four hundred forty-five people." "If they always go there, smooosh--smooosh, then you're going to wind up with one really fat finger."

\*. Extracting documents from his valise, Vinnie said, "Well, I've no right to talk. Food is my obsession. Look at me, so fat you'd think I'd been raised from birth for sacrifice." "There's a valuable lesson in that," Agnes said. "Others can learn from it if you care to share. But if you want to record your life only up to the card cheating, that's okay, too. Even that far, it's a fascinating journey, a story that shouldn't be lost with you when you pass on. Libraries are packed with biographies of movie stars and politicians' most of them not capable of as much meaningful self-analysis as you'd get from a toad. We don't need to know more about celebrities' lives, Obadiah. What might help us, what might even save us, is knowing more about the lives of real people who've never made it even medium but who know where they came from and why." "Yeah, they think we're with Candid Camera. So Jimmy points to this United Parcel truck parked across the street and says the cameras are in there." Tom didn't attribute supernatural powers to this killer. Enoch Cain was mortal, not all-seeing and all-knowing. Evil and stupidity often go together, however, and arrogance is the offspring of their marriage, as Tom had earlier told Celestina. An arrogant man, not half as smart as he thinks, with no sense of right and wrong, with no capacity for remorse, can sometimes be so breathtakingly reckless that, ironically, his recklessness becomes his greatest strength. Because he is capable of anything, of taking risks that mere madmen wouldn't consider, his adversaries can never predict his actions, and surprise serves him well. If he also possesses animal cunning, a kind of deep intuitional shrewdness, he can react quickly to the negative consequences of his recklessness and can indeed appear to be more than human.. When Junior cut open a grapefruit for breakfast, he didn't find a quarter in it.. Packed full of aftermath, the movie was too violent for Junior's taste. He had wanted to meet at a showing of Doctor Dolittle or The Graduate. But Google, as paranoid as a lab rat after half a lifetime of electroshock experiments, insisted on choosing the theater.. "We have reason to believe that the man who raped your sister is stalking you." Shortly after Agnes turned out the light, she said, "Kiddo, it's been one whole week since you walked where the rain wasn't, and I've been doing a lot of thinking about that." Celestina stared at the small, brown face, opening herself to the anger and hatred with which she had regarded this child in the operating room.. Edom and Jacob came to the house, asking what Dr. Chan had said, and Agnes lied to them. "There are some test results we won't have until Monday, but he thinks Barty is going to be all right." "Even when I was a young boy," Tom continued, "the world felt a lot different to me from the way it looked to other people. I don't mean I was smarter. I've got maybe a little better than average IQ, but nothing I could brag about. Flunked geography twice and history once. No one would ever confuse me and Einstein. It's just, I felt ... such complexity and mystery that other people didn't appreciate, such layered beauty, layers upon layers like phyllo pastry, each new layer more amazing than the last. I can't explain it to you without sounding like a holy fool, but even as a boy, I wanted to serve the God who had created so much wonder, regardless of how strange and perhaps even beyond all understanding He might be." "Maybe he's a character I saw in a movie or read in a novel. I'm a member of the Book-of-the-Month Club. I'm always reading one thing or another. I don't remember a character named B-Bartholomew, but maybe I read the book years ago." When at last the caller spoke again, her voice sounded a kingdom away: "Will you tell Bartholomew ... ?" When he killed the Bartholomew, this haunting would finally end, too. In Junior's mind, Vanadium and Bartholomew were inextricably linked, because it was the maniac cop who first heard Junior calling out Bartholomew in his sleep. Did that make sense? Well, it made more sense at some times than at others, but it always made a lot more sense than anything else. To be rid of the dead-but-persistent detective, he must eliminate Bartholomew.. Fortifying herself with more coffee, Jolene said, "Edom, you were going to tell us how Joey's coping with fatherhood." Junior tossed garments on the floor and across the bed to create the impression that the detective had

packed with haste. After being imprudent enough to blast Victoria Bressler five times with his service revolver-perhaps in a jealous rage, or perhaps because he had gone nuts-Vanadium would have been frantic to flee justice..He hadn't learned much from the call other than that they hadn't found Vanadium in his Studebaker at the bottom of Quarry Lake..He visited the bank in which he maintained a safe-deposit box under the John Pinchbeck identity. He withdrew the twenty thousand in cash and retrieved all the forged documents from the box..Frustrated again, she said simply, "Whenever Edom and Jacob talk about these things, I want you to be sure always to keep in mind that life's about living and being happy, not about dying."..summoned an expression no less dubious than that of a policeman listening to the alibi of a suspect with bloody hands. Then: "I'm quite sure that Wroth Griskin does not make candlesticks. If that's what you're looking for, I'd recommend the housewares department at Gump's."..Mary was at play here, and the sight of her, his first in seven years, almost brought Barty to his knees. She was the image of her mother, and he knew that this must be at least a little bit what Angel had looked like when, at three, she had initially arrived here in 1968, when she explored the kitchen on that first day and found the toaster under a sock..On this morning in March, minutes after the pie caravan had departed, Edom got his Ford Country Squire out of the garage and drove to the nursery, which opened early. Spring was drawing near, and much work needed to be done to make the most of the rosarium that Joey Lampion had encouraged him to restore. He happily contemplated hours of browsing through plant stock, tools, and gardening supplies..Reading the dates on the headstone, he saw that the minister's daughter had died on the seventh of January, the day after Naomi had fallen from the fire tower. If ever asked, Junior would have no trouble accounting for his whereabouts on that day..In the dark woods of the dream, still the presence: faceless and silent, radiating a merciless intent.."It's a boy," Joey assured her, as though he had been given a vision. Thick blood sluiced across his lower lip, down his chin, bright arterial blood. "Baby, no," she pleaded..she'd crossed herself during Edom's rant about the Tri-State Tornado of 1925. Then, she'd been warding off bad fortune; now, with a smile and a look of wonder, she was acknowledging the grace of God, which, according to the cards, had been settled generously on Bartholomew..slow breaths, and then she pointed at the windshield. "The hospital's that way."..The moon shimmered, and the stars blurred-but only briefly, for her devotion to this boy was a fiery furnace that tempered the steel of her spine and brought a drying heat to her eyes. Without Franklin Chan's full approval but with his complete understanding, Agnes took Barty home. On Monday, they would return to Hoag Hospital, where Barty would receive surgery on Tuesday.."You must've slipped this one in my pocket when you first came in here," Nolly deduced..Better still, he was able to have the girl to the accompaniment of her father's voice, which was even kinkier than doing her in the parsonage. When Junior rang the bell, Seraphim had been in her room, listening to a tape of a sermon her father was composing. The good reverend usually dictated a first draft, which his daughter then transcribed. For three hours, Junior went at her mercilessly, to the rhythms of her father's voice. The reverend's "presence" was deliciously perverse and stimulating to his sense of erotic invention. When Junior was finished, there was nothing sexual that Seraphim could ever do with a man that she had not learned from him.."Your mother's wise," Paul said. "More than all the owls in the world," the boy agreed..Unfortunately, Caesar Zedd had not written a self-help book on how to commit homicide and escape the consequences thereof, and as before, Junior was entirely on his own..Tales from Earthsea/Ursula K. Le Guin.-1st ed. p. cm. Contents: The finder-Darkrose and Diamond-The bones of the earth-.As Sinatra began to sing "I'll Be Seeing You," Junior stepped around the bloom and the Merlot. He cautiously peeled back two inches of the curtain at one of the sidelights..With every step through the long night walk, Paul had considered what he would say, must say, if this encounter ever took place. Now all his practiced words deserted him..Dr. Lipscomb brought his hands to his face, covering his nose and mouth as earlier they had been covered with a surgical mask, as though he were in danger of drawing in, with his breath, an idea that would forever change him..A few attractive women were here alone, proof that social mores had changed dramatically in three years. Junior was aware of their hot gazes, their need, and he knew that he could have any of them.."Yes. More about that later, just let me make it clear that an interest in physics doesn't make me a physicist. Even if I were, I couldn't explain quantum mechanics in an hour or a year. Some say quantum theory is so weird that no one can fully understand all its implications. Some things proven in quantum experiments seem to defy common sense, and I'll lay out a few for you, just to give you the flavor. First, on the subatomic level, effect sometimes comes before cause. In other words, an event can happen before the reason for it ever occurs. Equally odd ... in an experiment with a human observer, subatomic particles behave differently from the way they behave when the experiment is unobserved while in progress and the results are examined only after the fact-which might suggest that human will, even subconsciously expressed, shapes reality."..The calls to Bellini in San Francisco and to others in Oregon were made with a prayer for news, but the prayer went unanswered. Cain had not been seen, heard from, smelled, intuited, or located by the pestering clairvoyants who had attached themselves to the sensational case..Agnes, who inherited the property, would have welcomed her brothers in the main house. Although both were willing to visit her for an occasional dinner or to sit in rocking chairs on the porch, on a summer night, neither could abide living in that ominous place..Maria said, "It is ... the only thing ... I can do for him now, for you. I be nobody, not.Rico, her own husband-a drunkard and a gambler-had run off with another woman, abandoning Maria and their two small daughters. No doubt, he had departed in a spotlessly clean, sharply pressed, perfectly mended ensemble.."You did just fine, Tom, just fine," Agnes said in a consoling tone that she might have used with a boy whose performance, at a piano recital, had been earnest but undistinguished. "We were all quite impressed."..Maria, however, lived comfortably with both the Catholicism and the occultism in which she had been raised. In Hermosillo, Mexico, the latter had been nearly as important to the spiritual life of her family as had been the former.."When you cut Naomi's string, you put an end to the effects that I her music would have on the lives of others and on the shape of the future. YOU struck a

discord that can be heard, however faintly, all the way to the farthest end of the universe." Otter shrugged. Celestina, Grace, even Tom himself, had taken extraordinary measures to leave no slightest trail. Those very few authorities who knew how to reach Tom and, through him, the others, were acutely aware that his whereabouts and phone number must be tightly guarded. In the faraway, at the limits of night and fog, the dog bit off his bark in expectation. Coughing, spitting saliva that was bitter with toxic chemicals, Paul followed her, slapping frantically at his clothes when fire singed his shirt. She shook her head. "No way back." She pointed to the sketch pad on the floor. "I pushed him there." THE DEAD DETECTIVE, grinning in the moonlight, a pair of silvery quarters gleaming in the sockets once occupied by his eyes. As he'd been instructed, Vanadium felt along the return edge of the carved limestone casing to the right of the window until he located a quarter-inch-diameter steel pin that protruded an inch. The pin was grooved to facilitate a grip. An insistent, steady pull was required, but as promised, the thumb-turn latch on the inside disengaged. Still looming over her, he snatched the pad out of her hands and examined the sketch. "Where would you have seen this?" "As I explained, he might have thought I was you," Edom said, staring at the neatly ordered volumes on the nearby bookshelves. Entering the bedroom, Junior had expected to cast aside his pistol and draw a knife. But he was no longer in a mood for close-up work. Fortunately, he'd managed to hold on to the gun. After mentally reviewing what he must say, after working up a nervous edge, he dialed the SFPD emergency number. She told them of Phimie's request that the baby be named Angel. "At the time, I assumed she wasn't able to think clearly because of the stroke. Junior examined the music collection. The policeman's taste ran to big band music and vocalists from the swing era. From out of the fog and darkness came the slap of running feet on bricks. He was sprinting toward the back of the house. Agnes had the craziest notion that he was counting them, when at his age, Of course, he would have no concept of numbers. "Cancer," she whispered, and superstitiously reproached herself for speaking the word aloud, as though thereby she'd given power to the malignancy and ensured its existence. Vanadium arrived and stood beside Junior. His black suit was cheap, but it fit better than Rudy's. "Anyway, something clicked in me on the roller coaster, and I grasped a new angle of approach to the problem. I've figured out that I can walk in the idea of sight, sort of sharing the vision of another me, in another reality, without actually going there." He smiled into her astonishment. "So what do you say about that?" Her voice grew thinner when she spoke to Angel, but in this new frailty, Barty heard such love that he shook at the power of it. "God's in you, Angel, so strong you shine, and nothing bad at all." Between the one-line description of the baklava and the menu's more effusive words about the walnut mamouls, the suspense became too much, the doubt too insidious, at which point Celestina looked up and said, with more girlish angst in her voice than she had planned "Maybe this isn't the place, maybe it isn't the time, or maybe it's the time but not the place, or the place but not the time, or maybe the time and the place are right but the weather's wrong, I don't know--Oh, Another of Junior's self-improvement projects, since moving to California, was to become a knowledgeable gourmet, also a connoisseur of fine wines. San Francisco was the perfect university for this education, because it offered innumerable world-class restaurants in every imaginable ethnic variety. Celestina hadn't noticed the infant being taken away. She had wanted to see it once more, even though she was sickened by the sight of it. The popeyed little toad smirked over there on the far side of his pretentious desk. "I've already told them," Joey said, wheeling away from her and yanking open the door of the foyer closet with such force that she thought he would tear it off its hinges. make a worrywart life-insurance salesman like me seem just as light hearted as a schoolgirl." Out of Phimie's humiliation, terror, suffering, and death had come Angel, whom Celestina had first and briefly hated, but whom now she loved more than she loved Wally, more than she loved herself or even life itself. Phimie, through Angel, had brought Celestina both to Wally and to a fuller understanding of their father's meaning when he spoke of this momentous day, an understanding that brought power to her painting and so deeply touched the people who saw and bought her art. Backing off, trying to feel his way to the foyer and front door, afraid that if he stumbled over a chair, she'd descend upon him like a screaming hawk upon a mouse, Junior denied her accusation. "You're crazy. How could I know? Look at you! How could I possibly know?" By the time this operation concluded and the sulphurous Mr. Cain was brought to some form of justice, Simon might have spent twenty or twenty-five percent of the fee that he'd collected from the liability settlement in the matter of Naomi Cain's death. The attorney put a substantial price on his dignity and reputation. Returning to his apartment, Edom had to pass under the limbs of the majestically crowned oak that dominated the deep yard between the house and the garage. Junior had left the front door locked, because if unlocked, it would look as though he had wanted to facilitate their entry, and it would make them suspicious of the whole scenario. She was forty-three, so young to have left such a mark upon the world. Yet more than two thousand people attended her funeral service-which was conducted by clergymen of seven denominations-and the subsequent procession to the cemetery was so lengthy that some people had to park a mile away and walk. The mourners streamed across the grassy hills and among the headstones for the longest time, but the presiding minister did not begin the graveside service until all had assembled. None here showed impatience at the delay. Indeed, when the final prayer was said and the casket lowered, the crowd hesitated to depart, lingering in the most unusual way, until Barty realized that like he himself, they half expected a miraculous resurrection and ascension, for among them had so recently walked this one who was without stain. No. Ridiculous. Naomi wasn't slumped across him. He wasn't sharing his bed with a corpse. That was E.C. Comics stuff, something from a yellowed issue of Tales from the Crypt. Out of respect for his mother, Barty struggled to hold fast to his eyeless second sight, living in the idea of a world where he still had vision, until she had been accorded the honors she deserved and had been laid to rest beside his father. "Three hundred and ninety-six of the dead were children under the age of ten," Jacob continued. "A passenger train was tumbled off the tracks, killing twenty. Another train with tank cars got smashed around, and oil spilled across the flood waters, ignited, and all these people

clinging to floating debris were surrounded by flames, no way to escape. Their choice was being burned alive or drowning..Missing windshield. Considering that the space was pinched by the crumpled roof, however, and in light of Agnes's pregnancy and imminent second-stage labor, the severe contortions involved in this extraction would be too dangerous..Having risen higher in the sky during the past couple hours, the gold-coin moon reminded itself as silver, and in the black lake, its reflection rolled across the knuckles of the quiet wavelets.. "I'm interested in one of the smaller Griskins," said Junior, managing to appear calm, although his mouth was dry with fear and his mind spun with crazy images of the maniac cop, dead and rotting but nevertheless lurching around San Francisco..He tugged on a pair of thin latex surgical gloves. Flexed his hands. All right..When he judged that he was near the porch steps, he probed with his cane. Two paces later, the tip rapped the lowest step.. "I just wanted everyone to come see the spider, that's all. It was a really, really icky interesting bug..".WHEN A GLASS OF chilled apple juice at dawn stayed on his stomach, Junior Cain was allowed a second glass, though he was admonished He was also given three saltines..If the ace of diamonds, in quartet, must be taken seriously, then why not the rest of the draw?.As if he sensed her reluctance to return to Dr. Chan, Barty had kept her occupied with talk of the red planet as they approached the office building, had talked her off the street, along the driveway, and into a parking space, where finally she relinquished the fantasy of an endless road trip. At 5:45, long past the end of office hours, Dr. Chan's suite was quiet.
