Whatever the reason, Swyley's ability to pick out significant details from a hopeless mess of background garbage and to distinguish consistently between valid information and decoys was justly famed and uncanny. But since Swyley himself didn't understand how he did it, he was unable to explain it to the systems programmers, who had hoped to duplicate his feats with their image-analysis programs. That had been when the "-sits" and the "-zoologists" began their endless batteries of fruitless tests. Eventually Swyley made up plausible-sounding explanations for the benefit of the specialists, but these were exposed when the programs written to their specifications failed to work. Then Swyley began claiming that his mysterious gift had suddenly deserted him completely.. "Oh, I'm afraid it's not much good. I can usually do better. I guess I don't trust you enough. As they stared at the shiny, frozen hunk, something moved inside it, and they saw it was the form of a lovely girl. It was Lea, who had appeared to them in the pool..The truth, senior. This one you call Nina?this girl?is not a ghi. She is of the ancient race from the high peaks, where the great serpents dwell. Your workers here, even Moises, know only the jungle, but I come from the great valley beneath the mountains, and as a chfld I learned to fear those who lurk above. We do not go there, but sometimes the snake-people come to us. In the spring when they awaken, they shed then1 skins, and for a time they are fresh and clean before the scales grow again. It is then that they come, to mate with men." .She laughed. "Wonderful. So that's what you want us to do? Dig down there and warm the ice with our pink little hands? It won't work,
