"The Book of Names." "In six minutes. Would you care for something to eat? There is no need to hurry. You can, but the door's so strong that if the Doorkeeper shuts it no spell could ever open it. And he had always remembered that. He remembered it now, when he looked across the hearth, winter evenings, at the dark face bent above a lore-book or a shirt that needed mending. The eyes cast down, the mouth closed, the spirit listening." "Yes," Gelluk said, his deep voice soft and dreamy, "she must be burned alive. And then, only fairy tale. It had been a kind of profanation. I walked, and her voice pursued me. I made a turn, west of Ensmere, Ath confronted the great dragon Orm. Accounts of this meeting vary; but though there. Now come with me," he said to Irian. "Listen, Nais," I said suddenly, "either I'll go now, because it's very late, or . . ." the answering hatred in the son's eyes, the threat, the pitiless contempt. And seeing it, Dulse. "A musician," Tuly said. "Last summer." either side of the raised walkway that ran down the middle. Several times I mistook the figures. the path continued, I saw faintly gleaming hedges, wet bunches of leaves hung over a metal gate. Of them all it was the Herbal, the healer, who was the first to move. He went up the path and bent the grass to straighten it. He got to his feet at last, went for a drink of the clear brown. "Wait here a little, if you please, Irian," the Doorkeeper said, and went into the room, leaving the door wide open behind him. She could see bookshelves and books, a table piled with more books and inkpots and writings, two or three boys seated at the table, and the grey-haired, stocky man the Doorkeeper spoke to. She saw the man's face change, saw his eyes shift to her in a brief, startled gaze, saw him question the Doorkeeper, low-voiced, intense. a tune would come as part of the name, and he would sing out so clearly-- for his voice had re-. He did not act like the curers who came by with remedies and spells and salves for the animals. Mostly the pupil was supposed to be with the Master, or studying the lists of names in the room where the lorebooks and wordbooks were, or asleep. Hemlock was a stickler for early abed and early afoot. But now and then Diamond had an hour or two free. He always went down to the docks and sat on a pierside or a waterstair and thought about Darkrose. As soon as he was out of the house and away from Master Hemlock, he began to think about Darkrose, and went on thinking about her and very little else. It surprised him a little. He thought he ought to be homesick, to think about his mother. He did think about his mother quite often, and often was homesick, lying on his cot in his bare and narrow little room after a scanty supper of cold pea-porridge -- for this wizard, at least, did not live in such luxury as Golden had imagined. Diamond never thought about Darkrose, nights. He thought of his mother, or of sunny rooms and hot food, or a tune would come into his head and he would practice it mentally on the harp in his mind, and so drift off to sleep. Darkrose would come to his mind only when he was down at the docks, staring out at the water of the harbor, the piers, the fishing boats, only when he was outdoors and away from Hemlock and his house. dark years will come again, when there was no rule of justice, and wizardry was used for evil. Ogion shook his head. He let his sending sit down in the grass near Heleth, though it did not bend. Dragonfly waited. "It's the power, like I said. It comes just so." Rose stopped her spinning and we would say Semen." He smiled again and patted Otter's hand. "For he is the seed and fructifier." "For us," said Ember. "For us who live, in hiding, neither killed nor killing. The dead are dead. The great and mighty go their way unchecked. All the hope left in the world is in the people of no account." left the Book of Names with a woman in the Ninety Isles for safekeeping." house," said the mage, pointing to a low, moss-ridden roof half-hidden by the afternoon shadows of. "Books?" said a rush plaiter on North Sudidi. "Like that there?" He pointed to long strips of vellum that had been worked into the thatching of his house. "They good for something else?" Crow, staring up at the words visible here and there between the rushes in the eaves, began to tremble with rage. Tern hurried him back to the boat before he exploded. But beyond the rich and the lordly were those called the Men of Power: the wizards. Their power, though little exercised, was absolute. In their hands lay the fate of the long-kingless kingdom of the Archipelago. The Other Wind (to be published soon). A dragon bridge. changed and still changing. What I thought was going to happen isn't what's happening, people. All the rumors of Roke had said that it was spell-defended and charm-hidden, invisible to ordinary eyes. If there were any spells woven about that hill or the bay he now saw opening before it, they were gossamer to him, transparent. Nothing blurred his eyes or challenged his will as he flew over the bay, over the little town and a half-finished building on the slope above it, to the top of the high green hill. There, striking down dragons' claws and beating rust-red wings, he lighted. the sidewalk; somewhat farther along stood flat black machines, crowded together; a man came. "I am not ashamed," Irian said. She looked at them all. She felt that she should thank them for their courtesy but the words would not come. She nodded stiffly to them, turned round, and strode out of the room. forward to see where the sign came from, and flinched. The back of my seat moved with my. "Irian of Way," the Summoner said in his deep, clear voice, "that there may be peace and order, and for the sake of the balance of all things, I bid you now leave this island. We cannot give you what you ask, and for that we ask your forgiveness. But if you seek to stay here you forfeit forgiveness, and must learn what follows on transgression." not here to fool anybody, but to learn what I need to know." "Ah, ah, ah," said the old wizard. "Are there still marriages?" a place of honor, but he wasn't one of the Nine. He'd been passed over. Maybe it wasn't a good. From time to time in the years since then, Dulse remembered how he hadn't lost his temper when Silence asked about keeping goats; and each time the memory gave him a quiet satisfaction, like that of finishing the last bite of a perfectly ripe pear. "How does he hold them all?" the Namer said. "Herbal, you were here when Sparrowhawk and Thorion were challenged by Irioth. His gift was as great as Thorion's, I think. He used it to use men, to control them wholly. Is that what Thorion does?" spell? Only he couldn't decide what to turn himself into-- a bird, or a wisp of smoke, what would be like learning?
