

## LE FOYER

Junior had thought the news was the lab report, which had found no ipecac in his spew. All that had been distraction. Through the big window beyond her, the charry branches of the massive oak tree formed a black cat's cradle against the sky, leaves quivering slightly, as though nature herself trembled in trepidation of what Junior Cain might do. Although the girl was unable to articulate why she preferred not to have her mother at her side, they all understood the tumult in her heart. She couldn't bear to subject her gentle and proper mother to the shame and embarrassment that she herself felt so keenly and that she imagined would grow intolerably worse in the hours or days ahead, until and even after the birth. If killing the wrong Bartholomew had broken a dam in Junior and released a lake of tension, whacking the right Bartholomew would set loose an ocean of pent-up stress, and he would feel free as he'd not felt since the fire tower. Freer than he'd been in his entire life. In the motel office, Junior paid for another night in advance. His preference in lodgings didn't run to greasy carpeting, cigarette-scarred furniture, and the whispery scuttling of cockroaches in the dark, but though feeling better, he was too tired and shaky to drive. Everyone confronted Agnes with expressions of puzzlement and expectation, and she looked from one to another. Paul. Maria. Francesca. Bonita. Grace. Edom. Jacob. Finally Celestina. He followed an alleyway to the building's service entrance, for which he possessed a key that wasn't provided to other tenants. He unlocked the steel door and stepped into a small, dimly lighted receiving room with gray walls and a speckled blue linoleum floor. She protested that her ruined body had neither any comforts to offer a man nor the strength to be a bride. After following his uncle's movements, Barty looked at the table again. "Pie, pie, pie, pie, pie." Slow deep breathing forgotten, gasping like a drowning swimmer, a sudden sweat dripping from his brow, Junior used one foot to prod the fallen man. interminably against the ignition plate before, at last, he was able to insert it. "Should be a boy, because then you'll always have a man around the house." To be fair, with her exceptional beauty, she would have been the center of attention even in a gathering of real artists. Junior had little chance of getting at Seraphim's bastard boy without going through this woman and killing her as well; but if his luck held and he could eliminate Bartholomew without Celestina realizing who had done the deed, then he might yet have a chance to discover if she was as lubricious as her sister and if she was his heart mate. "That's the roaster tower," said Licky. "Where they cook the cinnabar to get the metal from it. Roasters die in a year or two. Where to, dowser?" During the drive, he alternated between great gales of delighted laughter and racking sobs wrought by pain and self-pity. The voodoo Baptist was dead, the curse broken with the death of he who had cast it. Yet Junior must endure this final devastating plague. Imagination like all living things lives now, and it lives with, from, on true change. Like all we do and have, it can be co-opted and degraded; but it survives commercial and didactic exploitation. The land outlasts the empires. The conquerors may leave desert where there was forest and meadow, but the rain will fall, the rivers will run to the sea. The unstable, mutable, untruthful realms of Once-upon-a-time are as much a part of human history and thought as the nations in our kaleidoscopic atlases, and some are more enduring. "Don't get me started on cyclones!" Edom hurried through the house and out to the station wagon, to fetch the boxes of groceries. Applying his intelligence now, he employed simple meditation techniques to calm himself and to slow his heartbeat. The cop was trying to rattle him into making a mistake, but calm men did not incriminate themselves. Leaving the engine running and the heater on, he got out of the car, leaned back inside, said, "Better lock up while I'm gone," and then closed his door. Shuddering, rubbing furiously at himself, he stumbled into the bathroom. In the mirror, he confronted a face he hardly recognized: swollen, lumpy peppered with red hives. Having been a volunteer instructor of English to twenty adult students over the years, having taught Maria Elena Gonzalez to speak impeccable English without a significant accent, Agnes was little needed as a teacher by her son. Even more than other children, he asked why with numbing regularity, why this and why that, but never the same question twice; and as often as not, he already knew the answer that he sought from her and was only confirming the accuracy of his deduction. He was such an effective autodidact, he schooled himself better than any college of professors that could have been assigned to him. In adversity lies great opportunity, as Caesar Zedd teaches, and always, of course, there is a bright side even when you aren't able immediately to see it. As though frightened of the gentle certainty in Celestina's eyes, the doctor turned away from him, and toward the window once more. And so at the age of thirty-one, after more than twenty-eight years of blindness with a few short reprieves, Barty Lampion received the gift of sight from his ten-year-old daughter. 1996 through 2000: Day after day, the work was done in memory of Agnes Lampion, Joey Lampion, Harrison White, Seraphim White, Jacob Isaacson, Simon Magusson, Tom Vanadium, Grace White, and most recently Wally Lipscomb, in memory of all those who had given so much and, though perhaps still alive in other places, were gone from here. WHEN AT LAST Paul Damascus reached the parsonage late Friday afternoon, January 12, he arrived on foot, as he arrived everywhere these days. Junior gave the Raisinets to him, and Google left the theater with his candy and his cash. Eventually he approached the door between the dining room and the kitchen. He paused there, listening. Bob gently encouraged him to return by degrees from the deep meditative state, return, return, return..... That evening, he was filled with a greater sense of adventure than he'd felt since arriving in the city from Oregon. Consequently, he treated himself to three glasses of a superb Bordeaux and a filet mignon in the same elegant hotel lounge where he had dined on his first night in San Francisco, almost three years earlier. "Even when I was a young boy," Tom continued, "the world felt a lot different to me from the way it looked to other people. I don't mean I was smarter. I've got maybe a little better than average IQ, but nothing I could brag about. Flunked geography twice and history once. No one would ever confuse me and Einstein. It's just, I felt ... such complexity and mystery that other people didn't appreciate, such layered beauty, layers upon layers like phyllo pastry, each new layer more

amazing than the last. I can't explain it to you without sounding like a holy fool, but even as a boy, I wanted to serve the God who had created so much wonder, regardless of how strange and perhaps even beyond all understanding He might be." By Thursday, September 23, due to Junior's accident and surgery, the draft board-which had reinstated his I -A status after he'd lost the exemption that had come with his former job as a rehabilitation therapist-agreed to schedule a new physical examination in December..Of course, he also might have shot off his own thumbs as double insurance against being drafted and sent to Vietnam..Polio, largely an affliction of younger children, had stricken her two weeks before her fifteenth birthday. Thirty years ago..Junior's heart knocked so hard and fast that he wouldn't have been surprised if Vanadium, at the far end of the room, had begun to tap his foot in time with it..Commit and command. It doesn't matter so much whether the course of action to which you commit is prudent or hopelessly rash, doesn't matter whatsoever whether society at large thinks it's a "good" thing that you're doing or a "bad" thing. As long as you commit without reservation you will inevitably command, because so few people are ever willing to commit to anything, right or wrong, wise or unwise, that those who plunge are guaranteed to succeed more often than not even when their actions are reckless and their cause is idiotic..Spinning off the stool, the bun cap in one hand and the mustard dispenser clutched in the other, Junior surveyed the long narrow diner. Looking for the maniac cop. The dead maniac cop. He half expected to see Thomas Vanadium: head crusted in blood, face bashed to pulp, caked in quarry silt, and dripping water as though he'd climbed out of his Studebaker coffin just minutes ago..The ball of sodden Kleenex was gripped so tightly in Junior's left hand that had its carbon content been higher, it would have been compacted into a diamond. He saw Vanadium staring at his clenched fist and sharp white knuckles. He tried to ease up on the wad of Kleenex, but he wasn't able to relent..Another pocket. More cartridges. Trying to squeeze just two into the magazine, but his hands shaking and slippery with sweat..In Losen's service was a man who called himself Hound, because, as he said, he had a nose for witchery. His employment was to sniff Losen's food and drink and garments and women, anything that might be used by enemy wizards against him; and also to inspect his warships. A ship is a fragile thing in a dangerous element, vulnerable to spells and hexes. As soon as Hound came aboard the new galley he scented something. "Well, well," he said, "who's this?" He walked to the helm and put his hand on it. "This is clever," he said. "But who is it? A newcomer, I think." He sniffed appreciatively. "Very clever," he said..Junior discovered more tears than could have been found in ten thousand onions. His wife and his unborn baby. He had been willing to sacrifice his beloved Naomi, but maybe he would have found the cost too high if he had known that he was also sacrificing his first-conceived child. This was too much. He was bereft.. "Oh? Do they rent their house out to pirates with little pirate children, clowns with little clown children?" By the time Agnes opened the driver's door and slumped behind the steering wheel, Barty levered himself onto the seat beside her. Grunting, he pulled his door shut with both hands as she jammed the key in the ignition and started the engine.. "I'm a less philosophical sort than Kathleen," Nolly said, "so what I've been wondering is where you learned the tricks with the quarter. How is it you're priest, cop-and amateur magician?" On this January twilight, as Maria Elena Gonzalez drove south along the coast from Newport Beach, all men of the sea must have been reaching for bottles of rum to celebrate the fruit-punch sky: ripe cherries in the west, blood oranges overhead, clustered grapes dark purple in the east..On hearing of Bartholomew's-and/or Celestina's-death, Neddy would be on the phone to the police, pointing them toward Junior, in twelve seconds. Maybe fourteen..On the fourth floor, at Dr. Klerkle's suite, the hall door stood ajar. Past office hours, the small waiting room was deserted..Because of his blindness and his intellectual gifts, Barty was home schooled; besides, no teacher was a match for his autodidactic skills, nor could anyone possibly inspire in him a greater thirst for knowledge than the one with which he had been born. Angel went to this same informal classroom, and her sole fellow student was also her teacher. They aced the periodic equivalency tests that the law required. Their constant companionship seemed to be all play, yet was filled with constant learning, too..When the ophthalmologist saw her misery, his kind face softened further, and his pity became palpable..But, ah, the heft of the candlestick, the smooth arc it made, and the crack of contact had been as hugely satisfying as any home-run swing that had ever won a baseball World Series..On second thought-no. If Seraphim had told anyone she'd been raped, the police would have been at Junior's doorstep in minutes, with a warrant for his arrest. No matter that they would have no proof. In this age of high sympathy for the previously oppressed, the word of a teenage Negro girl would have greater weight than Junior's clean record, fine reputation, and heartfelt denials..Looking toward the nearest window, where the wet night kissed the glass, he said, "Lawn sprinklers?" Oregon State Police might find at least one reason to be suspicious of the tragic scenario that he was creating. He didn't know much about the technology that police might employ at a crime scene, and he knew even less about forensic pathology. He was just doing the best job he could..He stood watching until the car cruised out of sight, and even after it dwindled to a speck and vanished in the distance, he stared at the point in the street where it had last been, stared while a breeze turned playful, tossing eucalyptus leaves around his feet, stared until at last he turned and began the long walk home.. "All right," Celestina conceded, and looked relieved. "Thank you, Paul. You're not only an exceptionally brave man but a gracious one, as well." "When you cut Naomi's string, you put an end to the effects that I her music would have on the lives of others and on the shape of the future. YOU struck a discord that can be heard, however faintly, all the way to the farthest end of the universe." "I'm gonna dream about baby chickens," she told Celestina, "and if I'm all yellow, they'll think I'm one of them." She was lost in his eyes: She wanted to pass through his eyes as Alice had passed through the looking glass, follow the beautiful radiance that was fading now, go with him through the door that had been opened for him and accompany him out of this rain-swept day into grace..As terrible as the situation was for Barty, Agnes knew that it was equally difficult for Paul. She could only hold him in the night, and let herself be held. And more than once, she told him, "If worse comes to worst, don't you go walking again." Vanadium, lending an aura of

normalcy to the house. Now he wanted silence, so he would immediately hear another car in the driveway if one arrived. When Junior complained of severe thirst, Victoria explained that he was to have nothing by mouth until morning. He would be put on a liquid diet for breakfast and lunch. Soft foods might be allowable by dinnertime tomorrow. He hadn't heard the cop get out of the chair and cross the dark room. Difficult. Vanadium was dead. Pounded with pewter and sunk in a flooded quarry. Gone forever. "It's just that you never know what anyone's hand has been up to recently," Jacob explained. "That respectable banker down the street might have thirty dismembered women buried in his backyard. The nice church-going lady next door might be sleeping in the same bed with the rotting corpse of a lover who tried to jilt her, and for a hobby she makes jewelry from the finger bones of preschool children she's tortured and murdered." Neddy possessed all the musical talent, but Junior had the muscle. Pinned against the wall, his throat in the vise of Junior's hands, Neddy needed a miracle if he were ever again to sweep another glissando from a keyboard. Among these people was an old man whom they called, among themselves, the Changer. He showed Otter a few spells of illusion; and when the boy was fifteen or so, the old man took him out into the fields by Serrenen to show him the one spell of true change he knew. "First let's see you turn that bush into the seeming of a tree," he said, and promptly Otter did so. Illusion came so easy to the boy that the old man took alarm. Otter had to beg and wheedle him for any further teaching and finally to promise him, swearing on his own true and secret name, that if he learned the Changer's great spell he would never use it but to save a life, his own or another's. As beautiful as they were, none of these women satisfied him as profoundly as Naomi had satisfied him. NOLLY SAT BEHIND his desk, suit jacket draped over the back of the chair, porkpie hat still squarely on his head, where it remained at virtually all times except when he was sleeping, showering, dining in a restaurant, or making love. The short walk across the room, to the hero's table, looked more daunting to Paul than the trek he'd just completed. He was nobody, a small-town pharmacist who missed more work each month, who relied increasingly on his worried employees to cover for him, and who would lose his business if he didn't get a grip on himself. He had never done a great deed, never saved a life. He had no right to impose upon this man, and now he knew he hadn't the nerve to do so, either. In a rocking chair, holding her tiny son in her arms, Agnes cried quietly. Often, Barty slept through her weeping. Awakened, he smiled or squinched his face into a puzzled frown. Having anticipated a problem of one kind or another, Junior withdrew a packet of crisp new hundred-dollar bills from an inside jacket pocket. The bank band still wrapped the stack, and on it was printed \$10,000. Truly, the time spent helping Agnes had given her uncountable new subjects for paintings and had begun to bring to her work a new depth that excited her. "When you pour out your pockets into the pockets of others," Agnes had once said, "you just wind up richer in the morning than you were the night before." In addition to delivering a honey-raisin pear pie, Agnes had come to offer Obadiah Sepharad a year's work-not performing magic, but talking about it. "Oh, it doesn't mean you're nervous in that sense. Nervous in this case means psychologically induced. Grief, Enoch. brief and shock and horror-they can have profound physical effects." "Retinoblastoma is usually unilateral," Dr. Chan continued, "occurring in one eye. Bartholomew has tumors in both." Something was very wrong with her, and she tried to speak, but again her voice failed her. "He worked in your shipyard, your highness." Losen liked to be called by kingly titles. Stepping into her digs was like passing through a time machine into another century, traveling in space, as well, to the Europe of Louis XIV. The expansive, high-ceilinged rooms overwhelmed the eye with the rich somber colors and the heavy forms of Baroque art and furniture. Shells, acanthus leaves, volutes, garlands, and scrolls-often gilded decorated the museum-quality antique Bombay chests, chairs, tables, massive mirrors, cabinets, and etageres. Memory of the Spartan decor of Thomas Vanadium's house lingered with Junior, and he addressed his living space with the detective's style in mind. He installed a minimum of furniture, though all new and of higher quality than the junk in Vanadium's residence: sleek, modern, Danish-pecan wood and nappy oatmeal-colored upholstery. Vanadium's vehicle, obviously not an official police sedan, was a blue 1961 Studebaker Lark Regal. A dumpy and inelegant car, it looked as though it had been designed specifically to complement the stocky detective's physique. On January 1, 1966, five days before Barty's first birthday, Agnes discovered him, in his playpen, engaged in unusual toe play. He wasn't simply, randomly tickling or tugging on his toes. Between thumb and forefinger, he firmly pinched the little piggy on his left foot, and then one by one pinched his way to the biggest toe. His attention shifted to his right foot, on which he first pinched the big toe before systematically working down to the smallest. Not a word of that would come to Paul, but his frustrating speechlessness might have been for the best. From everything he knew about this hero, such effusive praise would embarrass him. Tom plucked the quarter off the glass, folded it into his right fist, and then at once opened his hand, which was now empty. Sitting at the desk, Celestina phoned her parents again. She shook uncontrollably, but her voice was steady. "Some Baptists are opposed to drink, Doctor, but we're the wicked variety. Though all we have is a warm bottle of Chardonnay." By the time he reached the airport, located a private-charter company, chased up the owner through the night-security man, and arranged to be flown at once to Eugene, Oregon, aboard a twin-engine Cessna, the points of pain in his face had begun to throb. Kaitlin had the piercing voice and talent for vituperation that marked her as a member of the Hackachak tribe, but for now she was content to leave the vocal assault to her parents. The stare with which she drilled Junior, however, if brought to bear on a promising geological formation, would core the earth and strike oil in minutes. That Olympian purge had, however, made him appear to be both emotionally and physically devastated by the loss of his wife. He couldn't have calculated any stratagem more likely to convince most. Neither guilt nor remorse plagued him. Good and bad, right and wrong, were not issues to him. Actions were either effective or ineffective, wise or stupid, but they were all value neutral. "That won't do it." Junior knew that he looked as guilty as any man had ever looked this side of the first apple and the perfect garden. The sweating, the spasms of violent tremors, the defensive note that he could not keep out

of his voice, the inability to look anyone directly in the eyes for more than a few seconds--all were telltales that none of these professionals would overlook. He desperately needed to get a grip on himself, but he couldn't find a handle..The adoption records on Seraphim White's baby weren't sealed by law, because custody of the child was being retained by family..Knacker, Hisscus, and Nork, all talking at once, then failing silent as if they were a single organism, then talking in rotation but interrupting one another, tried to advance their agenda..During the past few hours, he had changed his life again, as dramatically as he had changed it on that fire tower almost three years ago..Police identified Junior as the prime suspect, and newspapers featured his photograph in most stories. They referred to him as "handsome," "dashing," "a man with movie-star good looks." He was said to be well known in San Francisco's avant-garde arts community. He got a thrill when he discovered that Sklent was quoted as calling him "a charismatic figure, a deep thinker, a man -with exquisite artistic taste .... so clever he could get away with murder as easily as anyone else might get away with double-parking. " "It's people like him," Sklent continued, "who confirm the view of the world that informs my painting."..As the nurse slapped a bar of lye soap in Celestina's right hand, she turned on the water in the sink..Instead of answering the question, meaning to imply that he believed Junior already knew the facts, Thomas Vanadium said, "I was able to get a warrant to search your house." Junior thought this must be a trick. No hard evidence existed to indicate that Naomi had died at the hands of another rather than by accident..That would not be a productive use of his time. Satisfying, but not prudent. Zedd tells us that time is the most precious thing we have, because we're born with so little of it..To become a physical therapist, Junior had taken more than massage classes, so he knew what hematemesis meant. Hematemesis: vomiting of blood..The apartment had been furnished with only two padded folding chairs and a bare mattress in the living room. The mattress was on the floor, without benefit of a bed frame or box springs..In the instant that Junior had shoved Naomi into the rotted railing, he had foreseen this visit from Rudy, Sheena, and Kaitlin. He'd known he could pretend to be offended at the state's offer to put a price on his loss, could feign revulsion, could resist convincingly--until gradually, after grueling days or weeks, he reluctantly allowed the indefatigable.If Junior had realized that they were driving only a block and a half, he wouldn't have followed them in the Mercedes. He would have gone the rest of the way on foot. When he pulled to the curb again, a few car lengths behind the Buick, he wondered if he had been spotted.."You may be eating yourself into an early grave, Vinnie, but poor Jacob has murdered his own soul, and that's infinitely worse."..Unquestionably, if he hadn't killed Vanadium, the maniac cop would have blown him away. That was clearly an act of self-defense.."I find you more than adequate in all ways that count. Besides, Joey was a generous and good lover. What he taught me, I can share." She smiled. "You'll find that I'm a darn good teacher, and I sense in you a star pupil."..Finding nothing more of interest in the study, he considered searching the rest of the house..Assuming that the boy had closed his eyes and was talking to himself, somewhere between his self-told bedtime story and a dream, Agnes retreated from the room, pulling the door only half shut behind her..She felt that she had failed her sister. She didn't know what more she could have done, but if she'd been wiser and more insightful and more attentive, surely this terrible loss would not have come to pass.."It was. But maybe that's not the whole story. Anyway, we know the usual poses these guys strike, the attitudes they think are deceptive and clever. Most of them are so obvious, they might as well just stick their willy in a light socket and save us a lot of trouble. This, however, is a new approach. Tends to make you want to believe in the poor guy."..Celestina jammed the shaft of the crank into the casing socket. Wouldn't fit. Her hands were shaking. Steel fins on the shaft of the crank had to be lined up just-so with slots in the socket. She fumbled, fumbled..The nurse was in was gone, but Maria remained in attendance. She the vinyl-and-stainless-steel armchair, busy at."it totally destroyed four towns, as if they were hit by atom bombs, tore up parts of six more towns, destroyed fifteen thousand homes. That's just the homes. This thing was black, huge and black and hideous, with continuous lightning snapping through it, and a roar, they said, like a hundred thunderstorms booming all at once."..And in time, the surgeon did appear, bearing the good news that neither of the malignancies had spread to the orbit and optic nerve, but he had no greater miracle to report..He'd wanted to give Celestina more help than she would accept. She continued working nights as a waitress for two years, while she completed classes at the Academy of Art College, and she quit her job only when she began to sell her paintings for enough to equal her wages and gratuities..What didn't come as a surprise to Paul was Agnes's determination that the Whites, during their period of lying low, should stay with her and Barty..Judging by his great pleasure in learning, Barty didn't feel robbed of anything. To him, the world was an orange of infinite layers, which he peeled and savored with increasing delight.."Wally," Celestina said, without hesitation, because suddenly she saw something of a Wally in his green eyes, which were livelier than they had been before.."--and the under girding of the observation platform itself is unstable. The whole thing could have fallen down with us on it!"..Phimie said the creep thought it was funny, but using Daddy's voice as background music also ... well, aroused him, maybe because it further humiliated her and because he knew it would humiliate our father. But we never told Daddy that part of it. Neither of us saw any useful reason for telling him."..Tom knew only three of the eight. Grace White, Angel, and Paul Damascus. The others were introduced quickly by Celestina. Agnes Lampion, their hostess. Edom and Jacob Isaacson, brothers to Agnes. Maria Gonzalez, best friend to Agnes. And Barty..The owner, also the pilot on this trip, was pleased to be paid cash in advance, in crisp hundred-dollar bills, rather than by check or credit card. He accepted payment hesitantly, however, and with an unconcealed grimace, as though afraid of contracting a contagion from the currency. "What's wrong with your face?"..Nellie found the strength to rise, but having risen, she was unable to speak. Her mouth shaped words, but her voice deserted her..Reflections of those tracks appeared as stigmatic tears on the long face of the physician..From his motel room, he telephoned Hanna Rey in Bright Beach. She still looked after his house on a part-time basis, paid the bills from a special account while he traveled, and kept him informed about events in his hometown. From Hanna, he

learned that Barty Lampion's eyes had been lost to cancer..He got in the Suburban, pulled the door shut, but didn't at once start the engine.."No," Otter said, and hesitated. He felt he owed this man an explanation. "See, it's not so much won't as can't. I thought of making plugs in the planking of that galley, near the keel-you know what I mean by plugs? They'd work out as the timbers work when she gets in a heavy sea." Hound nodded. "But I couldn't do it. I'm a shipbuilder. I can't build a ship to sink. With the men aboard her. My hands wouldn't do it. So I did what I could. I made her go her own way. Not his way." "What car?" Celestina asked, stopping at the bottom of the steps and turning to look..He knocked the pepper shaker on its side, and then with a groan put it upright once more..If the nun and the nurse could know the loathing that Celestina had felt earlier, they would never allow her here in the creche, never trust her with this newborn..The 9-mm pistol and the ammunition were on the foyer table. With trembling hands, Junior tore open the boxes and loaded the gun.."Can't pay us as well as Losen does. But we could live," Otter argued.."I'm wondering," Nolly said, "if you're not an officer of the law anymore, in what capacity are you going to pursue Cain?".Junior forgot all about seduction. "And she--what?--She adopted her sister's baby?". "Bet I could, and sell it, too," she said. "I might not be as good at it as I am at teeth, but I'd be better than some I've read."..In the face of his kindness, however, she couldn't refuse his request. She nodded..The instant he flipped the coin, he opened both hands--palms up, fingers spread--with a distracting flourish..BASEBALL CAP IN HAND, he stood on Agnes's front porch this Sunday evening, a big man with the demeanor of a shy boy..Blue fire flashed across the top of the range and followed drips down the baked-enamel front to the floor. Blue flared to yellow, and the yellow darkened when the blaze found the cadaver..They wore out a lot of cards and kept a generous supply of all types of decks on hand.."No," said Vanadium, "you only think you know who I am and what I am, but you don't know anything. That's all right. You'll learn."..Many police agencies required an officer to carry a firearm even when off duty. If the Oregon State Police had no such rule, Vanadium most likely carried one anyway, because in his crazy-as-a-snake mind,.But the boy played no tricks against his father. He took his beatings in silence and learned to hide his gift..As they dropped toward the surgical floor, the solemn sister said, "Another hypertensive crisis..The telephone was operative, and Vanadium dialed the number of the building superintendent, Sparky Vox. Sparky had an apartment in the basement, on the upper of two subterranean floors, adjacent to the garage entrance..So after waiting two months for the superhot Harrison White case to cool down, Junior returned instead to Spruce Hills, traveled bald and pocked and passing as Pinchbeck, under the cover of night.
