We think we have understood our words, then learn that we have not, since their essential meaning only dawns on us the second time round. Then came the examination, the removal to the hospital, the tests. They are unhappy with us. They speak, and theirs is a voice that shatters mountains. "WHO ARE..179." Hence angry readers can make the objection above, or add: every other feeling was something awful. He knew it was irrational, but he couldn't help it. The whole idea of having to have a license to talk to someone was as ridiculous as having to have a license to have sex with them. Right? Right! This statement is, I think, based on a cognitive error inculcated (probably) by American high school education. The error is that all proofs must be of the "hard" kind, i.e., cut-and-dried and susceptible of presentation in syllogistic form. An acquaintance with the modern philosophy of science would disabuse people of this notion; even a surprising amount of scientific proof is not of this kind. As philosophers since Plato have been pointing out, aesthetic and moral matters are usually not susceptible of such "hard" proof.. Once there was a poor man named Amos. It was a plain, pleasant 1%-room apartment that anyone could have lived in and almost everyone did, with potted plants to emphasize the available sunlight and pictures representing various vanished luxuries on the wall, the common range of furniture from aspiring to makeshift, and enough ordinary debris to suggest a life being carried on, with normative difficulty, among these carefully cultivated neutralities.. had mailed, in the same way, a huge amount of cash.
