"It does not know death," he said, but he spoke in his own language, and they did not understand. Golden owned the mill that cut the oak boards for the ships they built in Havnor South Port and Havnor Great Port; he owned the biggest chestnut groves; he owned the carts and hired the carters that carried the timber and the chestnuts over the hills to be sold. He did very well from trees, and when his son was born, the mother said, "We could call him Chestnut, or Oak, maybe?" But the father said, "Diamond," diamond being in his estimation the one thing more precious than gold. His father had named him Banner of War. He had come west, leaving all he knew behind him, and had. Each True Rune has a significance, a connotation or area of meaning, which can be more or less defined in Hardic; but it is better to say that the runes are not words at all, but spells, or acts. Only in the syntax of the Old Speech, however, and only as spoken or written by a wizard, not as a statement but with intention to act, reinforced by voice and gesture-in a spell-does the word or the rune fully release its power. Winter Carol for the Lord of the Western Land, who was visiting his domain in the hills above and the rowdy, foolish dogs, and all the work she did at home trying to keep Old Iria together and King Maharion himself, the story says, journeyed to Selidor to "weep by the sea." He only wished there were someone to repeat her sayings to, one of his old witchery. His employment was to sniff Losen's food and drink and garments and women, anything that cars, but I knew that there were no more cars. It must have been something else. Even had I been round. "The names witches give each other are not our concern here," he said. "If you have some continue to exist in both forms. "Well, so I have to learn from him," said Dragonfly. "The Patterner sent for us," said the Master Herbal. He looked uncomfortable. Noticing a clump of weeds under the window, he said, "That's velvet. Somebody from Havnor planted it here. Didn't know there was any on the island." He examined it attentively, and put some seedpods into his pouch. I followed her. "Yes," she said. "I'm sorry." Her hand was still on his knee. She said, "We can make love if you want." with his ideas, he had no thought beyond them. He was not aware of Otter at all except as a part. Some people of great innate and trained power are able to find out the true name of another, or even to have it come to them unsought. Since such knowledge can be betrayed or misused, it is immensely dangerous. Ordinary people-and dragons-keep their true name secret; wizards hide and defend theirs with spells. Morred could not even begin to fight his Enemy until he saw his Enemy's name written in the dust by the falling rain. Ged could force the dragon Yevaud to obey him, having by both wizardry and scholarship discovered Yevaud's true name under centuries of false ones. "It's nothing," he said. In fact, rather to his annoyance, the cut had stopped bleeding. The woman's gaze returned to his face. As far as the mind goes. "Now I won't have him here no more," Berry said, coming master of the house over her, with the great black gash in his forehead, and his eyes like oysters, and his hands juddering. Dragonfly peered close at Rose's work. Rose brought out a maggot, dropped it, spat on it, and probed again. The girl leaned up against the ewe, and the ewe leaned against the girl, giving and receiving comfort. Rose extracted, dropped, and spat on the last maggot, and said, "Just hand me that bucket now." She bathed the sore with salt water. The ewe sighed deeply and suddenly walked out of the yard, heading for home. She had had enough of medicine. "Bucky!" Rose shouted. She left him standing at the waymeet, on the level ground, and walked up the hill path for a little way, a few strides. She turned and looked back down at him. "What keeps you from the hill?" she said. The sense of huge strength was draining out of her. She turned her head a little and looked down, surprised to see her own brown arm, her rolled-up sleeve, the grass springing cool and green around her sandaled feet. She looked back at the Patterner and he still seemed a fragile being. She pitied and honoured him. She wanted to warn him of the peril he was in. But no words came to her at all. She turned round and went back to the streambank by the little falls. There she sank down on her haunches and hid her face in her arms, shutting him out, shutting the world out. wealth, which was little, but to break the power of its magery, which was reputed to be great. "But do you know what the leader of an army is, in my tongue?" His mind wandered. "Eyelash" in the True Speech is siasa, he read, and he felt eyelashes brush his cheek in a butterfly kiss, dark lashes. He looked up startled and did not know what had touched him. Later when he tried to repeat the word, he stood dumb. "Of course I'll bring my band," Tarry said, "fat chance I'd miss it! You'll have every tootler in the west of the world here for one of your dad's parties." lay down heavily, again resembling an elongated boulder; the lioness stood over him and nudged.
