Next we came to a moving walkway; we stood on it, a strange pair; lights swam by; now. surface on which we stood close together began to move upward and I saw below, in the distance.. He looked at the dark water. It reflected nothing.. all darkness. But in his body, not in his mind, burned a knowledge he could not name any more, a. right, then, though the word "change" rang and rang in his head.. "Yes," Irioth said. "I understand. You are a kind woman." She was talking about him, about his not knowing what he was doing. She was forgiving him. "A kind sister," he said. The words were so new to him, words he had never said or thought before, that he thought he had spoken them in the True Speech, which he must not speak. But she only shrugged, with a frowning smile.. They went on through darkness, seeing only the track before them in the dim silvery glow of werelight shot through by silver lines of rain. When she stumbled he caught her arm. After that they went on pressed close side by side for comfort and for the little warmth. They walked slower, and yet slower, but they walked on. There was no sound but the sound of the rain falling from the black sky, and the little kissing squelch of their sodden feet in the mud and wet grass of the track.. "It always seemed to me they're sort of alike," he said, "magic and music. Spells and tunes. For one thing, you have to get them just exactly right." Ivory obeyed, half-annoyed by this crude giantess and half-intrigued. She did not put him in mind. "Wait. . . then what exactly do you do?" each other directly, as there was no room for their knees. At O Port she had bought herself a. said, and Azver nodded.. They had little trust in men. A man had betrayed them. Men had attacked them. It was men's ambitions, they said, that had perverted all the arts to ends of gain. "We do not deal with their governments," said tall Veil in her mild voice.. Another reason he loved her.. the wet rocks afterward, because he was very cold. One arm hurt and had no strength in it.. The existence of magic as a recognized, effective power wielded by certain individuals, but not by. Havnor openly. Men of arms didn't trust men of craft and didn't like to serve them. No matter what. "Probably we can't," said the Herbal. "If the Windkey locks the winds against us ...". The daughter of "the wise king Thoreg" rescued Erreth-Akbe from this trance or imprisoning spell and restored him his strength. He gave her the half of the Ring of Peace that remained to him. (From her it passed through her descendants for over five hundred years to the last heirs of Thoreg, a brother and sister exiled on a deserted island of the East Reach; and the sister gave it to Ged.) Intathin kept the other half of the broken Ring, and it "went into the dark"-that is, into the Great Treasury of the Tombs of Atuan. (There Ged found it, and rejoining the two halves and with them the lost Rune of Peace, he and Tenar brought the Ring home to Havnor.) 10 9 8 7 6 5 4 3 2 1. He went on showing his wares and joking with the women and children. Nobody bought anything. They gazed at the trinkets as if they were treasures. He let them gaze and finger all they would; indeed he let one of the children filch a little mirror of polished brass, seeing it vanish under the ragged shirt and saying nothing. At last he said he must go on, and the children drifted away as he folded up his pack.. which useful, which dangerous; why some people had one gift but not another, and whether you could. fragments into a curve, then closed it into a circle. Tracing descent both through the male and the female lines, and intermarrying with various noble houses of the Archipelago, the royal house embraced five principalities: the House of Enlad, the oldest, tracing direct descent from Morred and Serrriadh; the Houses of Shelieth, Ea, and Havnor; and lastly the House of Ilien. "Talent's no good without memory!" He was not harsh, but he was unyielding. Diamond had no idea what opinion Hemlock had of him, and guessed it to be pretty low. The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships and houses, purifying wells, and sitting on the councils of the city, seldom speaking but always listening. Another wizard, not Roke-trained but with the healer's gift, looked after the sick and dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as far as Diamond could see, doing no magic at all. "Keep the Equilibrium, it's all in that," Hemlock said, and, "Knowledge, order, and control." Those words he said so often that they made a tune in Diamond's head and sang themselves over and over: knowledge, or-der, and contro-----.....But as he went back up the streets of South Port he lost her. He swore to keep her with him, to think of her, to think of her that night, but she faded away. By the time he opened the door of Master Hemlock's house he was reciting lists of names, or wondering what would be for dinner, for he was hungry most of the time. Not till he could take an hour and run back down to the docks could he think of her..onto a moving walkway.
