Afterward, Ike and I stopped in The Fig Leaf for a couple of beers. Ike seemed worried. "Do you think he really has our best interests at heart, Jake?" he asked. "The lords of Creation." I forgot to watch out for the rebound. Pain lanced up my arm. I went down, bouncing my head off. You don't modify an aerodynamic design lightly, not one that's supposed to hit the atmosphere at ten thousand-plus kilometers. So I think we can rule that out. It probably meant that there was no easy way of getting out of D Company again let alone out of the regular service, Colman reflected as he watched in the darkness and waited for Swyley to deliver his verdict. And that made it unlikely that Colman would get the transfer into Engineering that he had requested, I See You by Damon Knight 1. Meanwhile, Columbine Brown had been putting him off with a variety of excuses and dodges. The never let a man touch me, but she?shell have any man who strikes her fancy, just like her mother." The gossip columnists speculated a great deal about how Amanda and Selene managed their dual existence, but because neither personality gave interviews on the subject, it had to remain only speculation. If, after the first cell division, the two offspring cells, for any reason, should happen to fall apart, each offspring cell may then go on to develop into a complete organism of its own. The result is a pair of identical twins, each with the same genetic equipment and each of the same sex, of course. In a sense, each twin is a clone of the other.. encore, but that's just it: they, shouldn't want one. They shouldn't need one.. No sweat. That was a laugh. All he'd done since he got here was sweat. No sane attacking force would contemplate taking an objective like that by a direct frontal assault in the center--the lowermost stretch of the trail was too well covered by overlooking slopes, and there would be no way back if the attack bogged down. That was what the enemy commander would have thought anyone would have thought. So what would be the point of tying up lots of men to defend a point that would never be attacked? According to the book, the correct way to attack the bunker would be along the stream from above or by crossing the stream below and coming down from the spur on the far side.
