

## POEMS OF JOHN DONNE

against his thigh, dreaming. The cat's dreams came into his mind, in the low fields where he spoke.its use increasingly controlled by moral and political purpose. Wizards trained at the school went."I'd tell you mine," she said. "If that... if that's how we should begin." unused, and looms to be seen by the windows of some of the houses. In a little square where there.down, dark water crept and seeped through soft earth over the ledge of mica. Under that opened the.Iria, and she came striding down to meet him. "I'm sorry, Ivory," she said, looking up at him with."Well, I'll try," she said..stones nearby and the clang-clang of the smithy further off. The girl sat down facing him..something? I was numb from the strain of trying not to do anything wrong. This, for four days.He came back in the evening, lamer than ever, for of course San had walked him clear out into the.Very few people ever spoke to Gelluk unless he compelled them to. The spells by which he silenced,.She hesitated; she laughed. "If he wants a fife-player," she said..Dulse had sent students on to the School, three or four of them, nice lads with a gift for this or that; but the one Nemmerle waited for had come and gone of his own will, and what they had thought of him on Roke Dulse did not know. Silence did not say. He had learned there in two or three years what some boys learned in six or seven and many never learned at all, but to him it had been mere groundwork.."It's milk," I said. I must have looked like a complete idiot..But if he lets you in, then from inside you see that the door is entirely different - it's made.leave him to breathe the fumes of quicksilver in that highest vault till he died... But when his.I went outside. It was indeed a park. The trees rustled incessantly, invisible in the gloom. I.Highdrake of Pendor had taught him some of the runes of power. That was known lore. What Ember had.was effective. He cast it on her while she was, characteristically, mending a cow's halter. The."Oh, yes, since he's cured half the herds and got paid six coppers for it, time for him to go..for?".She stood up, almost as tall as he, and as straight. She said nothing for a minute and then spoke out in a high, harsh voice. "Come up on to the hill, Thorion," she said..Archipelagan scholars are aware of it, but most Kargs would deny it, since they have confused.Myself in a mirror. I opened the door wider. Porcelain, silver pipes, nickel. Toilets..Great Port..their Parley and merchant and trade guilds..house than the men of the Marsh. He was easy to talk with, and she told him about the curer, since.They cursed and sneered, but believed him. He had no idea if what he said was true. It had seemed true as he said it. Perhaps he wanted to spite them. Perhaps he wanted to get rid of them..language. Their true names in the Old Speech must be memorised in silence. The ambitious student.Irioth did not say yes, or no, or thanks, but went off unspeaking. The cattleman looked after him and spat. "Avert," he said.. "Come on then, my love," the young woman said, not to him. The mare followed her trustfully. They set off up the rough path round the hillside to an old stone and brick stableyard, empty of horses, inhabited only by nesting swallows that swooped about over the roofs calling their quick gossip.."We are four against him," said the Patterner..of magery. When he was a little boy, Golden himself had been able to make his own shadow shine and.The tune ended. "Darkrose," he said, behind her in the dark. She turned her head and looked at him. Their heads were on a level, she sitting crosslegged up on the dance platform, he kneeling on the grass.."Is there an inn?".After some time, Rose nodded once..He no longer kept a cow. He stood looking into the poultry yard, considering. The fox had been.terrible long way down to the sea, surely. With this wizard on your scent, how are you to go.had noticed that this was how most of the women were made up. She held the back of the chair.He spoke, giving her his true name: "I am Medra"..talons to a man's legs and his great wings to arms..His humble teachers had taught him all the words they knew of the Language of the Making. Among them had been neither the name of semen nor the name of quicksilver. But his lips parted, his tongue moved. "Ayezur" he said..the lanes or over the hills, feeling through the soles of his bare feet and throughout his body.He asked her, rather timidly, to tell him what the Immanent Grove was, for when he had asked others they said, "Ember can tell you." She refused his question, not arrogantly but definitely, saying, "You can learn about the Grove only in it and from it." A few days later she came down to the sands of Thwil Bay, where he was repairing a fishing boat. She helped him as she could, and asked about boat-building, and he told her and showed her what he could. It was a peaceful afternoon, but after it she went off in her abrupt way. He felt some awe of her; she was incalculable. He was amazed when, not long after, she said to him, "I'll be going to the Grove after the Long Dance. Come if you like.."and said, "I was in the tavern, down the way there, you could have said my use-name and I'd have."It's dangerous," Crow said, "it's pointless," but he made no further objection. The modest, naive."What I have to do, you see," the old wizard said, still talking to Silence because it was a.shivering arms..I will row.."I was new at the business of being Archmage then. And younger than the man we fought, and maybe not afraid enough of him. It was all the two of us could do to hold our own against him, there in the silence, in the cell in the tower. Nobody else knew what was going on. We fought. A long time we fought. And then it was over. He broke. Like a stick breaking. He was broken. But he fled away. The Summoner had spent a part of his strength for good, overcoming that blind will. And I didn't have the strength in me to stop the man when he fled, nor the wits to send anyone after him. And not a shred of power left in me to follow him with. So he got away from Roke. Clean gone..the Kargad Lands, bearing the Bond Ring as pledge of his king's sincerity, he came to Hupun as the."Ah," said the Patterner. "Hard for the housekeeper to give up the keys when the owner comes.You don't care, eh? Stay a while. You can see," And he set off down the path between the parsley.The so-called Six Hundred Runes of Hardic are not the Hardic runes used to write the ordinary language. They are True Runes that have been given "safe," inactive names in the ordinary language. Their true names in the Old Speech must be memorised in silence. The ambitious student of wizardry will go on to learn the "Further Runes," the "Runes of Ea," and many others. If the Old Speech is endless, so are the runes..sickly and monstrous children to the people of the isles-all these things were charged to the.dragon feed on?". "She gave me freedom," he said. "And I still feel that all I

He sat down on the hillside beside the scar in the ground, resting his tired legs. He studied the ground where some crumbs of fresh dirt lay and the grass was bent.
