The mare put her head down and shivered all over with relief. "What did you keep her standing there in the middle of the dogs for?" the woman demanded furiously. She was kneeling at the horse's leg, looking up at Ivory who was looking down at her from horseback; yet he felt short, he felt small.."Yes," he said, "but only disguised. Taking dragon form himself, he flew to battle with Orm over Mount Onn. "Flame and fire in the midnight air" could be seen from the palace in Havnor. They flew north, Erreth-Akbe in pursuit. Over the sea near Taon, Orm turned again and this time wounded the mage so that he had to come down to earth and take his own form. such gaudy tricks, as Hemlock called them, sat in a narrow room at the back of the wizard's narrow house on a narrow back street of the old city, memorizing long, long lists of words, words of power in the Language of the Making. "They haven't undone what you did yet, either," he said. "Old Whiteface was crawling." "I will," said Ivory, with a wink at Dragonfly. She, well disguised in dirt and a farmhand's old smock and leggings and a loathsome felt hat, did not wink back. She played her part even while they sat side by side dangling their legs over the tailgate, with six great halftuns of wine jolting between them and the drowsy carter, and the drowsy summer hills and fields slipping slowly, slowly past. Ivory tried to tease her, but she only shook her head. Maybe she was scared by this wild scheme, now she was embarked on it. There was no telling. She was solemnly, heavily silent. I could be very bored by this woman, Ivory thought, if once I'd had her underneath me. That thought stirred him almost unbearably, but when he looked back at her, his thoughts died away before her massive, actual presence..- do not wish Thorion to be Archmage. That's what you must look for and look to. Nothing goes right but as part of the pattern. Only in it is freedom."It was Golden's grandest party yet, with a dancing floor built on the town green down the way from Golden's house, and a tent for the old folks to eat and drink and gossip in, and new clothes for the children, and jugglers and puppeteers, some of them hired and some of them coming by to pick up whatever they could in the way of coppers and free beer. Any festivity drew itinerant entertainers and musicians it was their living, and though uninvited they were welcomed. A tale-singer with a droning voice and a droning bagpipe was singing The Deed of the Dragonlord to a group of people under the big oak on the hilltop. When Tarry's band of harp, fife, viol, and drum took time off for a breather and a swig, a new group hopped up onto the dance floor. "Hey, there's Labby's band!" cried the pretty girl nearest Diamond. "Come on, they're the best!".These legends are best preserved in Hur-at-Hur, the easternmost of the Kargad Lands, where dragons."He won't come here?". "Worms," said the helmsman, the master's brother. "Catch fish anywhere near Roke, you'll find em thick with worms as a dead dog on a dunghill."The young man, called Ivory, did not actually have his staff and cloak yet; he explained that he was to be made wizard when he went back to Roke. The Masters had sent him out in the world to gain experience, for all the classes in the School cannot give a man the experience he needs to be a wizard. Birch looked a little dubious at this, and Ivory reassured him that his training on Roke had equipped him with every kind of magic that could be needed in Iria of Westpool on Way. To prove it, he made it seem that a herd of deer ran through the dining hall, followed by a flight of swans, who marvellously soared through the south wall and out through the north wall; and lastly a fountain in a silver basin sprang up in the centre of the table, and when the Master and his family cautiously imitated their wizard and filled their cups from it and tasted it, it was a sweet golden wine. "Wine of the Andrades," said the young man with a modest, complacent smile. By then the wife and daughters were entirely won over. And Birch thought the young man was worth his fee, although his own silent preference was for the dry red Fanian of his own vineyards, which got you drunk if you drank enough, while this yellow stuff was just honeywater.. "This is a great thing," I muttered. After a moment, I added, "But it would have been.Morred and Elfarran married, and the poem describes their reign as a brief golden age, the foundation and touchstone of ethic and governance thereafter..for the Earth itself. The next day she said, "I'm going to sit under the trees." Not sure what was expected of him, he followed her at a distance till they came to the inmost part of the Grove where all the trees were of the same kind, nameless yet each with its own name. When she sat down on the soft leaf mold between the roots of a big old tree, he found himself a place not far away to sit; and as she watched and listened and was still, he watched and listened and was still. So they did for several days. Then one morning, in rebellious mood, he stayed by the stream while Ember walked into the Grove. She did not look back.
