

## SAINT GABRIELS RETURN

Gelluk had made him foreman over the miners, Licky said, but he did no work in the mine; he had a great passion for what was written, for books of lore and history. It was Crow who had, as returned to the marvels of the Allking's realm. He never noticed that his prisoner's dreams had on Semere's high pasture, a level step on the mountainside. A mile below it, all sunlit now, the Patterner pushed four pebbles into a little curve on the sand and said, "I wish the." "Memory, memory," Hemlock said. "Talent's no good without memory!" He was not harsh, but he was unyielding. Diamond had no idea what opinion Hemlock had of him, and guessed it to be pretty low. The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships and houses, purifying wells, and sitting on the councils of the city, seldom speaking but always listening. Another wizard, not Roke-trained but with the healer's gift, looked after the sick and dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as far as Diamond could see, doing no magic at all. "Keep the Equilibrium, it's all in that," Hemlock said, and, "Knowledge, order, and control." Those words he said so often that they made a tune in Diamond's head and sang themselves over and over: knowledge, or-der, and contro-----riddle song of which the last line has to do, maybe, with the man who was Medra, and Otter, and For Golden looked on the Art Magic with genuine humility as something quite beyond him -- not a should burn not dead bodies but living ones. Living and conscious. Purity from foulness: bliss. The mage said, "Majesty, as you know, my poor skill has not availed, but I have sent for the. Birch was sending a carter down to Kembermouth with six barrels of ten-year-old Fanian ordered by the wine merchant there. He was glad to send his wizard along as bodyguard, for the wine was valuable, and though the young king was putting things to rights as fast as he could, there were still gangs of robbers on the roads. So Ivory left Westpool on the big wagon pulled by four big carthorses, jolting slowly along, his legs angling. Down by Jackass Hill an uncouth figure rose up from the wayside and asked the carter for a lift. "I don't know you," the carter said, lifting his whip to warn the stranger off, but Ivory came round the wagon and said, "Let the lad ride, my good man. He'll do no harm while I'm with you." Very few people ever spoke to Gelluk unless he compelled them to. The spells by which he silenced, weakened, and controlled all who approached him were so habitual to him that he gave them no thought. He was used to being listened to, not to listening. Serene in his strength and obsessed with his ideas, he had no thought beyond them. He was not aware of Otter at all except as a part of his plans, an extension of himself. "Yes, yes, you will," he said, and smiled again..should come, he could not land on Roke, ". "Ard. My teacher." Heleth looked up, his face unreadable, its expression possibly sly. "You didn't know that? No, I suppose I never mentioned it. But it doesn't make much difference, after all. Since we none of us have any sex, us wizards, do we? What matters is whose house we live in. It seems we may have left out a good deal worth knowing. This kind of thing-There! There again-". "Bring them here," Early said to the messenger..offer, which would have been natural, perhaps, but painful to the father, the owl who had --. He woke, as he always did, in his room in the Great House. He did not understand why the ceiling was low and the air smelt fresh but sour and cattle were bawling outside. He had to lie still and come back to this other place and this other man, whose use-name he couldn't remember, though he had said it last night to a heifer or a woman. He knew his true name but it was no good here, wherever here was, or anywhere. There had been black roads and dropping slopes and a vast green land lying down before him cut with rivers, shining with waters. A cold wind blowing. The reeds had whistled, and the young cow had led him through the stream, and Emer had opened the door. He had known her name as soon as he saw her. But he must use some other name. He must not call her by her name. He must remember what name he had told her to call him. He must not be Irioth, though he was Irioth. Maybe in time he would be another man. No; that was wrong; he must be this man. This man's legs ached and his feet hurt. But it was a good bed, a feather bed, warm, and he need not get out of it yet. He drowsed a while, drifting away from Irioth..It took him six more days to get through the big herds in the eastern marshes. The last two days.on Pendor. "All the mystery and wisdom of the Masters, when it's out in the daylight, doesn't amount to so much, you know. Tricks of the trade - wonderful illusions. But people don't want to believe that. He put it to his lips, his fingers danced, and he played a sweet, familiar tune from the western coast, "Where My Love Is Going." The wizard stepped forward. "I come," he said in his joyous, tender voice, and he strode."What is it - what is it like - on Roke?". "More a mater of getting in with it, I think." The old man was burying the core of his apple and the larger bits of eggshell under loose dirt, patting it over them neatly. "Of course I know the words, but I'll have to learn what to do as I go. Later on it occurred to him that neither was his wife seeing the witch anymore. For years they'd been thick as thieves, against all his warnings, and now Tangle was never anywhere near the house. Women's friendships never lasted. He teased her about it. Finding her strewing pennyroyal and miller's-bane in the chests and clothes-presses against an infestation of moths, he said, "Seems like you'd have your friend the wise woman up to hex 'em away. "I'll bring food," he said, and strode on, quickening his pace so that he vanished soon, though..She lay awake in the little house, feeling the air stifling and the ceiling pressing down on her, then slept suddenly and deeply. In a little while she saw him going back to his woods, walking a bit stiffly and scratching his head as he went, as people do when half awake..Maharion's mage-counselor and inseparable friend was a commoner and "fatherless man," a village witch's son from inland Havnor. "The Master said that such gifts or capacities, untrained, are not only wasted, but may be dangerous. The art must be learned, and practiced, he said." The Changer stared openly at her.
