Except as an evil to be dreaded and shunned, magic plays no recognized part in their society. This inability or refusal to practice magic puts the Kargs at a disadvantage with the Archipelagans in almost every respect, which may explain why they have generally held themselves aloof from trade or any kind of interchange, other than piratical raids and invasions of the nearer islands of the South Reach and around the Gontish Sea..heed. The necessity of not swearing had been a burden to him in his youth, and for thirty years the imbecility of apprentices, clients, cows, and chickens had tried him sorely. Apprentices and clients were afraid of his tongue, though cows and chickens paid no attention to his outbursts. He had never been angry at Silence before. arcane mystery in the Lore of Paln, long ignored by the scholars of Roke, relate that in the earliest days dragons and human beings were all one kind. Eventually these dragon-people separated into two kinds of being, incompatible in their habits and desires. Perhaps a long geographical separation caused a gradual natural divergence, a differentiation of species. The Pelnish Lore and the Kargish legends maintain that the separation was deliberate, made by an agreement known as *verw nadan*, *Vedurnan*, the Division. "I know you found that little patch for them to dig, but there's no more in that than a few drops. It's scarcely worth burning for so little. If you are to help me, and if I am to teach you, you must try a little harder. I think you know how." He smiled at Otter. They keep complex accounts and records in weavings of different colors and weights of yarn, and are expert mathematicians, using base twelve; but only since the Godkings came to power have they employed any kind of symbolic writing, and that sparingly. Bureaucrats and tradesmen of the Empire adapted the Hardic runes to Kargish, with some simplifications and additions, for purposes of business and diplomacy. But Kargish priests never learn writing; and many Kargs still write every Hardic rune with a light stroke through it, to cancel out the sorcery that lurks in it..and shepherds followed their flocks over the mountain to better pastures. Maybe he hoped she would come, but she did not come, and he soon slept in sheer weariness. He woke in the first, cold light. He sat up and thought. He looked at life in that cold light. It was a different matter from what he had believed it. He went down to the stream in which he had been named. He drank, washed his hands and face, made himself look as decent as he could, and went up through the town to the fine house at the high end, his father's house..similar to my sweater but with a full, inflated collar sat sideways at a table, a glass in his hand,.offered them at fair prices, mostly in barter, since there was little money among the islanders.."Will you come with me?" the Patterner said to Irian..little else of Archipelagan culture, having no commerce, no agriculture, and no knowledge of other.a peaceful one, and ate what the Master Patterner brought her in his basket - eggs, cheese,.probably puts some brake on linguistic drift in daily speech), while the Hardic runes, like.bright the hawk's flight.down. Crow had stocked the boat with better wares than most householders of the Isles were used to seeing, and Tern offered them at fair prices, mostly in barter, since there was little money among the islanders. But in the Isles all books were old and all uncanny, what there was of them..were everywhere, though ranged in some order. When they talked to each other it was always about what they were going to do in town, in Oraby, when they got paid off. He heard a good deal about the whores in Oraby, Daisy and Goldie and the one they called the Burning Bush. He had to sit with the young men because they all needed what warmth there was to be got from the fire, but they did not want him there and he did not want to be there with them. In them he knew was a vague fear of him as a sorcerer, and a jealousy of him, but above all contempt. He was old, other, not one of them. Fear and jealousy he knew and shrank from, and contempt he remembered. He was glad he was not one of them, that they did not want to talk to him.
