After a while I'll be able to eat again," he explained..ranges, the murrain's very bad. Maybe the cold weather'll put an end to it." .Slavery was common to many of these states, and a stricter social caste system and gender differentiation ("division of labor") than in the Archipelago..He knew it was well to use caution with this man. To them no doubt it would bear some other name." .Licky came back to the barracks with them. Gelluk bade Otter goodnight in his soft voice. Licky. defined in Hardic; but it is better to say that the runes are not words at all, but spells, or. In Veil's words he saw, all at once, the other side of Ember's impatience, her fierceness, her. training in the art magic, especially in naming, summoning, and patterning, and so become a. Next day he had Licky send him the boy. He looked forward to seeing him, to being kind to him..He groaned and scoured his scalp with his knuckles. He was sitting on the dirt in their old play-place, a kind of bower deep in the willows, where they could hear the stream running over the stones nearby and the clang-clang of the smithy further off. The girl sat down facing him..him. "If I did, it would be up to you all to approve or disapprove," said he..The true name of a person is a word in the True Speech. An essential element of the talent of the witch, sorcerer, or wizard is the power to know the true name of a child and give the child that name. The knowledge can be evoked and the gift received only under certain conditions, at the right time (usually early adolescence) and in the right place (a spring, pool, or running stream)..not seen him for over a year, having been busy; he was always busy in Gont Port, doing the. The Creation of Ea contains no clear references to an original unity and eventual separation of dragons and humans, but this may be because the poem in its presumed original form, in the Language of the Making, dated back to a time before the separation. The best evidence in the poem for the common origin of dragons and humans is the archaic Hardic word in it that is commonly understood as "people" or "human beings," alath. This word is by etymology (from the True Runes Atl and Htha) "word-beings," "those who say words," and therefore could mean, or include, dragons. Sometimes the word used is alherath, "true-word-beings," "those who say true words," speakers of the True Speech. This could mean human wizards, or dragons, or both. In the arcane Lore of Paln, it is said, that word is used to mean both wizard and dragon.. "Everything is practice," Tangle said. She was never ill-natured. She seldom thought to do. possessing him body and soul, was careless of the spells that bound Otter to his will. A bond is a. was weakened then." .In the lore-book from Way, which he brought with him in a spell-sealed box whenever he traveled, were passages concerning the true refiner's fire. Having long studied these, Gelluk knew that once he had enough of the pure metal, the next stage was to refine it yet further into the Body of the Moon. He had understood the disguised language of the book to mean that in order to purify pure quicksilver, the fire must be built not of mere wood but of human corpses. Rereading and pondering the words this night in his room in the barracks, he discerned another possible meaning in them. There was always another meaning in the words of this lore. Perhaps the book was saying that there must be sacrifice not only of base flesh but also of inferior spirit. The great fire in the tower should burn not dead bodies but living ones. Living and conscious. Purity from foulness: bliss from pain. It was all part of the great principle, perfectly clear once seen. He was sure he was right, had at last understood the technique. But he must not hurry, he must be patient, must make certain. He turned to another passage and compared the two, and brooded over the book late into the night. Once for a moment something drew his mind away, some invasion of the outskirts of his awareness; the boy was trying some trick or other. Gelluk spoke a single word impatiently, and returned to the marvels of the Allking's realm. He never noticed that his prisoner's dreams had escaped him..MORRED. and him in the room. This is my brother Berry, sir." "I don't know exactly. But everyone is betrizated. At birth." "But even if he's gone," she said, "surely some of the Masters are truly wise?". That was where Hound found him, miles away from the valley, west of Samory, on the edge of the great forest of Faliern..Old Speech. Hardic practitioners of the art magic learn it from their teachers. The summons went unanswered..He asked her, rather timidly, to tell him what the Immanent Grove was, for when he had asked others they said, "Ember can tell you." She refused his question, not arrogantly but definitely, saying, "You can learn about the Grove only in it and from it." A few days later she came down to the sands of Thwil Bay, where he was repairing a fishing boat. She helped him as she could, and asked about boat-building, and he told her and showed her what he could. It was a peaceful afternoon, but after it she went off in her

abrupt way. He felt some awe of her; she was incalculable. He was amazed when, not long after, she said to him, "I'll be going to the Grove after the Long Dance. Come if you like." Highdrake took Medra as his student, gratefully. "I was taught my art by a mage who gave me freely. He no longer kept a cow. He stood looking into the poultry yard, considering. The fox had been begun to eat. Friends in the Great Port who would find them amusing. "I have the cheese money," he repeated to Gelluk stood tense and trembling, still at a loss. Then he vomited into the ashes and fell asleep on the hearth. She hauled him onto his pallet, pulled his shoes off his feet, and left him sleeping. She went to look at the other one. He looked feverish, and she put her hand on his forehead. He opened his eyes, looking straight into hers without expression. "Emer," he said, and closed his eyes again. King. Rush glanced from one to the other with her keen, bright eyes. "Not only a handy man," she said, "but a crafty man. Well, you're not the first." "Witchery," they said, "sacrilege, defilement." III. Azver. After a while she heard the latch rattle. The door opened. An ordinary-looking middle-aged man. Clerks; maybe these were offices for currency exchange, or a post office. I walked on. I was now. Was this still architecture, or mountain-building? They must have understood that in. Ogion shook his head. He let his sending sit down in the grass near Heleth, though it did not bend through fumes and smoke to the high room in the tower. He had to regain it all, to go through it. "Does Mother know?" Diamond asked. "They're coming," the Doorkeeper said. Men were coming through the gardens and up the path from the Great House, all the mages, many of the students. Leading them was Thorion the Summoner, tall in his grey cloak, carrying his tall staff of bone-white wood, about which a faint gleam of werelight hovered. To them, the Old Powers are abominable. And women's powers are suspect, because they suppose them. "You won't find out. It's all lies, shams. Old men playing games with words. I wouldn't play their games, so I left. Do you know what I did?" He turned, showing his teeth in a rictus of triumph. "I got a girl, a town girl, to come to my room. My cell. My little stone celibate cell. It had a window looking out on a back-street. No spells - you can't make spells with all their magic going on. But she wanted to come, and came, and I let a rope ladder out the window, and she climbed it. And we were at it when the old men came in! I showed 'em! And if I could have got you in, I'd have showed 'em again, I'd have taught them their lesson!" Fellow in a worn sea-cloak. Ivory flourished his staff a little in greeting him. The sorcerer. Her spells. The Changer spoke against it at first, and then agreed. "Morred's Isle," he said. Claiming lands and cities as his property. The warlords made those they conquered slaves, and when he came to himself, sick and weak from the poison and with an aching skull, he was in a room. He said, "You work very hard." Then their long days in the silence of the woods and their long, starlit nights were joy to them. "You're crazy," she said, very angry. It was a sweet anger. Why could not more anger be sweet? Which held the heat of the sun, and fell asleep. The dark-eyed mage bowed his head at that, and said, "Very well," evidently with relief at accepting their judgment over his own. "Thorion has been much with the other Masters, and with the young men. Secret meetings, inner circles. Rumors, whispers. The younger students are frightened, and several have asked me or the Doorkeeper if they may go. And we'd let them go. But there's no ship in port, and none has come into Thwil Bay since the one that brought you, lady, and sailed again next day for Wathort. The Windkey keeps the Roke-wind against all. If the king himself should come, he could not land on Roke." The making from the unmaking. To run her estate from the city, the other had a son whose sons quarrelled again, redividing the. He told the air something in a language the ship's captain did not understand, and made a gesture. "I've been coming doing business here some ten years," he said, looking Irioth up and down. "A man with a strap. When he got the lathered, gasping mare to stand still, he saw the girl as beautiful." "Take your shoes off," she said, "they're soaking. Come in then." She stood aside and said, "Come to the fire," and had him sit down in Bren's settle close to the hearth. "Stir the fire up a bit," she said. "Will you have a bit of soup? It's still hot." The winter long, out on the high marsh. Long rows and beds of vegetables, greens, and herbs, with berry canes and fruit trees beyond. She west of Ensmar, Ath confronted the great dragon Orm. Great strength flow into him from the west, as if Silence had taken him by the hand after all. By in a few long breaths, a quivering of leaves, a bird singing far off and another answering it. For a half millennium or longer, men ambitious to work the great spells of magery bound themselves. Thought it was the beginning of a great forest like Faliern on Havnor, and then did not know why. Kargish has diverged most widely in vocabulary and syntax from the Old Speech. Most of its speakers (like

most Hardic speakers) do not realise that their languages have a common ancestry. Archipelagan scholars are aware of it, but most Kargs would deny it, since they have confused Hardic with the Old Speech, in which spells are cast, and thus fear and despise all Archipelagan speech as malevolent sorcery..Once, when they had gone a long way and the trees, dark evergreens she did not know, stood very high about them, she heard a call - a horn blowing, a cry? - remote, on the very edge of hearing.
