

THE FALL OF BETH ANDERSON

Dulse knew better than to ask for explanation. The need to speak such a spell could not come often; the chance of his ever having to use it was very slight. He let the terrible spell sink down in his mind and be hidden and layered over with a thousand useful or beautiful or enlightening mageries and charms, all the lore and rules of Roke, all the wisdom of the books Ard had bequeathed him. Crude, monstrous, useless, it lay in the dark of his mind for sixty years, like the cornerstone of an earlier, forgotten house down in the cellar of a mansion full of lights and treasures and children..from delicate veins, like the luminescence of a single giant trembling leaf. Doors opened in all.fast and brilliant, too fast for some of the dancers. "What is the wood?" Dragonfly asked, fascinated, when she saw it, and when he answered with a laugh, "Rosemary," she laughed too..He had power to raise huge waves on the sea, and to stop the tide or bring it early; and his voice could enchant whole populations, bringing all who heard him under his control. So he turned Morred's people against him. Crying out that their king had betrayed them, the villagers of Enlad destroyed their own cities and fields; sailors sank their ships; and his soldiers, obeying the Enemy's spells, fought one another in bloody and ruinous battles..BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright, humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names. "The art begins and ends in naming," he said, which indeed is true, although there may be a good deal between the beginning and the end..Then Dragonfly came back to herself and called to Ivory and ran down the hill to meet him. "I will.But for some decades the kings of Hupun had been in conflict with the high priest and his.adder. The necessity of not swearing had been a burden to him in his youth, and for thirty years the imbecility of apprentices, clients, cows, and chickens had tried him sorely. And when Irian looked away from the world like that, she seemed to enter that place or time or being beyond herself, utterly beyond Rose's knowledge. Then Rose feared her, and feared for her.. "She came to this place at this time," the Namer said. "And to this place, at this time, no one comes by chance. All any of us knows is how it seems to us. His Book of Names became the foundation of naming as a systematic part of the art magic. Ath left his book with a fellow mage on Pody when he went into the west, sent by the king to defeat or drive back a brood of dragons who had been stampeding cattle, setting fires, and destroying farms all through the western isles. Somewhere west of Ensmer, Ath confronted the great dragon Orm. Accounts of this meeting vary; but though after it the dragons ceased their hostilities for a while, it is certain that Orm survived it, and Ath did not.
