After this struggle, the line of the Kargish kings continued in Hupun, nominally honored but powerless. The Four Lands were governed from Awabath. The high priests of the Twin Gods became Priestkings, In the year 840 of the Archipelagan count, one of the two Priest-kings poisoned the other and declared himself to be the incarnation of the Sky Father, the Godking, to be worshiped in the flesh. Worship of the Twin Gods continued, as did the popular worship of the Old Powers; but religious and secular power was henceforth in the hands of the Godking, chosen (often with more or less concealed violence) and deified by the priests of Awabath. The Four Lands were declared to be the Empire of the Sky and the Godkings official title was All-Emperor.. The early kings and queens of Enlad, among whose names are Lar Ashal, Dohun, Enashen, Timan, and Tagtar, gradually increased their sway till they proclaimed themselves rulers of Earthsea. Their reign extended no farther south than Ilien and did not include Felkway in the east, Paln and Semel in the west, or Osskil in the north, but they did send explorers out all over the Inmost Sea and into the Reaches. The most ancient maps of Earthsea, now in the archives of the palace in Havnor, were drawn in Berila about twelve hundred years ago.. Maybe that is why the people there now call their village not Woodedge, as it. Through love, respect, and trust, Dragonfly would never disregard a warning from Rose; but she was unable to see Ivory as perilous. She didn't understand him, but the idea of fearing him, him personally, was not one she could keep in mind. She tried to be respectful, but it was impossible. She thought he was clever and quite handsome, but she didn't think much about him, except for what he could tell her. He knew what she wanted to know and little by little he told it to her, and then it was not really what she had wanted to know, but she wanted to know more. He was patient with her, and she was grateful to him for his patience, knowing he was much quicker than she. Sometimes he smiled at her ignorance, but he never sneered at it or reproved it. Like the witch, he liked to answer a question with a question; but the answers to Rose's questions were always something she'd always known, while the answers to his questions were things she had never imagined and found startling, unwelcome, even painful, altering all her beliefs..the land altered with time and chance..and when his son was born, the mother said, "We could call him Chestnut, or Oak, maybe?" "Tell them-tell them I was wrong," Irioth said. "Tell them I did wrong. Tell Thorion-" He halted, confused..She thought about the School, where she had been so briefly. From here, under the eaves of the Grove, she saw it as stone walls enclosing all one kind of being and keeping out all others, like a pen, a cage. How could any of them keep their balance in a place like that?. They walked past the roaster tower, past the old shaft and the new one, on into the long valley where Otter had taken Licky the first day he was there. It was late autumn now. The shrubs and scrubby grass that had been green that day were dun and dry, and the wind rattled the last leaves on the bushes. To their left a little

Meeting her."Irian of Way, my lords," said the Doorkeeper. They were all silent. He motioned her to come.The sense of huge strength was draining out of her. She turned her head a little and looked down, surprised to see her own brown arm, her rolled-up sleeve, the grass springing cool and green around her sandaled feet. She looked back at the Patterner and he still seemed a fragile being. She pitied and honoured him. She wanted to warn him of the peril he was in. But no words came to her at all. She turned round and went back to the streambank by the little falls. There she sank down on her haunches and hid her face in her arms, shutting him out, shutting the world out..blazing yellow in the grass. Children on Havnor knew that flower.
