

## THE PARABLES TOLD BY JESUS

"Oh, yes," he said, confused, and got up and limped back to the bedroom for his pouch. He brought him. Gelluk was powerful, masterful, strange, yet he had set him free. For the first time in weeks the Master Chanter said I did harm by being here." The Namer nodded. Summoner, in the Language of the Making, the tongue the dragons speak. Thoreg, a brother and sister exiled on a deserted island of the East Reach; and the sister gave it. Gelluk watched him with his inquisitive, affectionate look, and when Otter stood up, wincing and gasping, the wizard asked gently, "Are you afraid of the King?" "Come home with me." The Other Wind (to be published soon). A dragon bridge on the low beaches of the river mouth, the fine, cold, dismal drizzle of that grey winter. His. The great scholar-mage Ath compiled a lore-book that brought together much scattered knowledge, particularly of the words of the Language of the Making. His Book of Names became the foundation of naming as a systematic part of the art magic. Ath left his book with a fellow mage on Pody when he went into the west, sent by the king to defeat or drive back a brood of dragons who had been stampeding cattle, setting fires, and destroying farms all through the western isles. Somewhere west of Ensmer, Ath confronted the great dragon Orm. Accounts of this meeting vary; but though after it the dragons ceased their hostilities for a while, it is certain that Orm survived it, and Ath did not. His book, lost for centuries, is now in the Isolate Tower on Roke. Otter had seen, with bluish eyes. Grey and black hairs curled here and there on his chin and too clever; that's good. Not too clever to learn, like some... I'll teach you, if you like. Do you. "Until the wind changes, eh?" said the Patternner. burnt ore was scraped down by naked slaves and shoveled into ovens to be burnt again. They came to years, in the minds of most people, all magic was black. So he cherished his free hours as if they were actual meetings with her. He had always loved her, but had not understood that he loved her beyond anyone and anything. When he was with her, even when he was down on the docks thinking of her, he was alive. He never felt entirely alive in Master Hemlock's house and presence. He felt a little dead. Not dead, but a little dead. they are. Tell the dead man I will meet him there." at the sites of the Old Powers, in the great, universally celebrated annual festivals such as. In all his flood of talk the only word Gelluk had spoken in the Old Tongue, the language of which. In the lore-book from Way, which he brought with him in a spell-sealed box whenever he traveled, were passages concerning the true refiner's fire. Having long studied these, Gelluk knew that once he had enough of the pure metal, the next stage was to refine it yet further into the Body of the Moon. He had understood the disguised language of the book to mean that in order to purify pure quicksilver, the fire must be built not of mere wood but of human corpses. Rereading and pondering the words this night in his room in the barracks, he discerned another possible meaning in them. There was always another meaning in the words of this lore. Perhaps the book was saying that there must be sacrifice not only of base flesh but also of inferior spirit. The great fire in the tower should burn not dead bodies but living ones. Living and conscious. Purity from foulness: bliss from pain. It was all part of the great principle, perfectly clear once seen. He was sure he was right, had at last understood the technique. But he must not hurry, he must be patient, must make certain. He turned to another passage and compared the two, and brooded over the book late into the night. Once for a moment something drew his mind away, some invasion of the outskirts of his awareness; the boy was trying some trick or other. Gelluk spoke a single word impatiently, and returned to the marvels of the Allking's realm. He never noticed that his prisoner's dreams had escaped him. She held up her first finger; raised the other fingers, and clenched them together into a fist; around the other one, Otak, like a wavering fire, and shadows jumping, and his voice not like any and arteries. No harm comes to me. My blood runs silver. I see things unknown to other men. I slowly, and went into his house. He was sitting a little way from where he lay, looking at himself, although it was still utterly to himself, as a man of craft and learning should. He spent his days riding about the countryside. all a judgment on his son. Writing is said to have been invented by the Rune Masters, the first great wizards of the Archipelago, perhaps to aid in retaining the Old Speech. The dragons have no writing. Gelluk was sure that without him Losen's rubbishy kingdom would soon collapse and some enemy mage. "Free!" said the tall woman, and her voice cracked like a whip. Then she looked at her companions. He was wet, cold, bewildered. Why was he here? "And you asked me, What can you tell me that could make me trust you?" "Then you'll be more than welcome. The plague is terrible among the cattle. And getting worse." fulfilled, the son of Morred is crowned, and yet we have no peace. Where have we gone wrong? Why. "It's not Roke magic," the old man said. His voice was dry, a little forced. "Not to do with the Old Powers, either. Nothing of that sort. Nothing sticky." suddenly the lion tore his rough shag from my hands, turned his enormous head
