The two of them changed course and scrambled up the rope ladder hanging over the side.. David (or Murray) was about twenty-five, redheaded, and freckled. He had a slim, muscular body which was also freckled. I could tell because he was wearing only a pair of jeans, cut off very short, and split up the sides to the waistband. I.His first elation fizzled out and he was left with his usual flattened sense of personal inconsequence..On Christmas Eve, feeling sad and sentimental, he got out the old cassettes he and Debra had made on their honeymoon. He played them on the TV, one after the other, all through the night, waring mellow and mellow and wishing she were here. Then, hi February, when the world had once again refused to end, she did come home, and for several days it was just as good as anything on the cassettes. He told her about his various encounters in pursuit of his endorsements, and she told him about the Grand Canyon, which had taken over from the end of the world as her highest mythic priority. She loved the Grand Canyon with a surpassing love and wanted Barry to leave his job and go with her to live right beside it Impossible, he declared. He'd worked eight years at Citibank and accrued important benefits. He accused her of concealing something. Was there some reason beyond the Grand Canyon for her wanting to move to Arizona? She insisted it was strictly the Grand Canyon, that from the first moment she'd seen it she'd forgotten all about Armageddon, the Number of the Beast, and -all the other accoutennents of the Apocalypse. That possibility had been discussed,.But whenever dusk began, the girl Hinda would go to the edge of the clearing and call out in a high, sweet voice:.he neared us. If we hadn't, he'd have bowled us over..now. I was never genius enough that I could have got a really good job with, say, Bell Futures or one of the big space firms. But I've got one marketable talent?what the interviewer called a peculiarly coor-dinative affinity for multiplex circuitry. He looked a tittle stunned after I finished with the stim console. Wind erosion of rocks can create an infinity of shapes, but it.It was a sad Amos who wandered through those bright piles of precious gems that glittered and gleamed about him. The walls were much too high to climb and they went all the way around. Being a clever man, Amos knew there were some situations in which it was a waste of wit to try and figure a way out. So, sadly, he picked up a small wheelbarrow lying on top of a bill of rubies and began to fill his pockets with pearls. When he had hauled up a cauldron full of.dead. The stories in this book cover the period from our November 1976 issue through the middle of 1979, a period of great growth in the science fiction field, at least in terms of numbers. If you're the sort who likes to sniff the air for trends, you may have detected a smell of old attics, as much sf seemed to swing back to traditional, even old-fashioned themes and forms. I've had to fight that all the way from my Air Force days. So if you have any objections you might as well tell me up front". "This way," she said, beckoning them into a tunnel formed from more strips of plastic.
