

## THE SALMON FLY HOW TO DRESS IT AND HOW TO USE IT

When she closed the front door and turned away from it, Agnes bumped her swollen belly into Joey. His eyebrows shot up, and he put his hands on her distended abdomen, as if she were more fragile than a robin's egg and more valuable than one by Faberge. This saving spirit retreated, and in his place came a young paramedic in a black-and-yellow rain slicker over hospital whites. "Just want to be sure there's no spinal injury before we move you. Can you squeeze my hands?" He wondered what it would be like to make love to Renee and kill her. Only once had he killed without good reason. And that had been one of the infuriating Bartholomews. Prosser in Terra Linda. A man. On that occasion, no erotic element had been involved. This would be a first. Outside, flames churned to the left and right of the opening. The front of the house was afire. Before he taught himself to read books, he also taught himself numbers, and then how to read a clock. The significance of time had a more profound impact on him than Agnes could understand, perhaps because acquiring an awareness of the infinite nature of the universe and the finite nature of each human life-and fully understanding the implications of this knowledge-takes most of us till early adulthood if not later, whereas for Barty, the vast glories of the universe and the comparatively humble nature of human existence were recognized, contemplated, and absorbed in a matter of weeks. This graciousness didn't free Paul to speak. Instead, he felt his throat thicken, trapping his voice more tightly still. In his mind, he carried a blueprint of the house more precisely drawn than anything that might have been prepared by an architect. He knew the place to the inch, and he adjusted his pace and all his mental calculations every month to compensate for his steady growth. So many paces from here to there. Every turn and every peculiarity of the floor plan committed indelibly to memory. A journey like this was a complicated mathematical problem, but being a math prodigy, he moved through his home almost as easily as when he had enjoyed sight. Suddenly, even in the heart of a great city, the alleyway seemed as lonely as an English moor, and not a smart place to seek asylum from a vengeful spirit. Casting aside all pretense of self-control, Junior sprinted for the next street, where the sight of multitudes, swarming in winter sunshine, filled him not with paranoia or even uneasiness, anymore, but with an unprecedented feeling of brotherhood. As kinky and thrilling as it had been to make love to the girl while playing the recorded rough draft of a new sermon that she had been transcribing for her father, Junior could now recall nothing of what the reverend had said, only the tone and the timbre of his voice. Whether instinct, nervous irritation, or merely the sherry should be blamed, he was troubled by the thought that there was something significant about the content of that tape. Worried that tears would frighten Barty, that indulging in a few would result in a ruinous flood, Agnes held back the salt tides. A mother's duty proved to be the stuff from which dams were built. "No," said Vanadium, "you only think you know who I am and what I am, but you don't know anything. That's all right. You'll learn." Junior had left the front door locked, because if unlocked, it would look as though he had wanted to facilitate their entry, and it would make them suspicious of the whole scenario. Agnes's suspicion that Barty would be a child prodigy had grown from seed to full fruit on the morning of the boy's first birthday, when he'd sat in his highchair, counting green-grape-and-apple pies. Through the following two years, ample proof of high intelligence and wondrous talents ripened Agnes's suspicion into conviction. Twice would indicate a dangerous mania. Three times would be indefensible. But once was healthy experimentation. A learning experience. As one, those around the table raised their eyes to the ceiling and smiled at the sound of the downpour. Barty, with patches over his empty sockets, also looked up with a smile. She could have used the chair. Sitting, however, she wouldn't be able to see his face. He'd never had a chance to read this to Perri or to benefit from her opinion. Now, as he scanned the lines of his calligraphic handwriting, his words seemed foolish, inappropriate, confused. Angel moved her hand to Barty's right eye, and again he didn't twitch with surprise when her fingers lightly touched his closed and sagging lid. "I won't let you forget." "Miss White," he continued, still facing the window, "not long before you arrived in surgery this morning, your sister died on the table. We hadn't delivered the baby yet, and perhaps couldn't have done so, by cesarean, in time to prevent brain damage, so for both the sake of the mother and child, heroic efforts were made to bring Phimie back and ensure continued circulation to the fetus until we could extract it." The second time, armed with the previously calculated fact that each regular year contains 3,153,600 seconds, and that a leap year contains an additional 86,400, she vetted Barty's answer in only four minutes. Thereafter, she accepted his numbers without verification. In addition to delivering a honey-raisin pear pie, Agnes had come to offer Obadiah Sepharad a year's work-not performing magic, but talking about it. "When the Iroquois Theater in Chicago burned on December 30, 1903" he said aloud, testing his memory, "during a matinee of Mr Blue Beard, six hundred two people perished, mostly women and children." Caesar Zedd recommended not merely seizing the day but devouring it. Chew it up, feed on the day, swallow the day whole. Feast, said Zedd, feast, approach life as a gourmet and as a glutton, because he who practices restraint will have stored up no sustaining memories when famine inevitably comes. Barty rounded the tree and returned to the porch. He climbed the steps and stood before Tom. He threw away his necktie, because in the elevator, on the way down from Renee's-or Renee's--penthouse, and again on the walk back to his apartment, he had scrubbed his tongue with it. On further consideration, he threw away everything that he had been wearing, including his shoes. "God bless us, every one," Agnes repeated with all her extended family, and after a sip of the wine, she made an excuse to check on something in the kitchen, where she pressed hot tears into a cool, slightly damp dishtowel to prevent the telltale swelling of her eyes. After moving all of a hundred feet, Celestina and Wally-with Grace fretting that someone would be hurt-had torn down the high stave fence between properties, for theirs had become one family with many names: Lampion, White, Lipscomb, Isaacson. When backyards were joined and a connecting walkway poured, Barty's travels from house to house were greatly simplified, and regular

visits by the Gonzalez, Damascus, and Vanadium branches of the clan were also facilitated..Surprising himself more than anyone, Edom also presented his collection to the university. Out with tornadoes, hurricanes, tidal waves, earthquakes, and volcanoes; bring in the roses. He lightly renovated his small apartment, painted it in brighter colors, and throughout the autumn, he stocked his bookshelves with volumes on horticulture, excitedly planning a substantial expansion of the rosarium come spring..Junior was glad for the chance to eavesdrop, not only because he hoped to learn the nature and depth of Vanadium's suspicions, but also because he was curious-and concerned-about the cause of the disgusting and embarrassing episode that had landed him here..At the farthest end of the loft from the stereo speakers, voices nevertheless had to be raised in even the most intimate exchanges. The artist who had created *In the Baby 's Brain Lies the Parasite of Doom, Version 6*, however, possessed a voice as deep, sharp-edged, and penetrating as his talent..The nurse raised her eyes from Agnes to this other person. "Yes a chip of ice would be all right." Nearly two weeks ago, in the Spruce Hills hospital, Junior had been drawn by some strange magnetism to the viewing window at the neonatal-care unit. There, transfixed by the newborns, he sank into a slough of fear that threatened to undo him completely. By some sixth sense, he had realized that the mysterious Bartholomew had something to do with babies..STILL WEARING HIS white pharmacy smock over a white shirt and black slacks, striding purposefully along the streets of Bright Beach, under a malignant-gray twilight sky worthy of a *Weird Tales* cover, with ominous accompanying rhythm provided by wind-clattered palm fronds overhead, Paul Damascus headed home for the day..Thunder less distant now. Around her-the crackle of police radios, the clang of tools being readied, the skirl of a stiffening wind. Dizzying, these sounds. She couldn't shut her ears against them, and when she closed her eyes, she felt as though she were spinning..The two women stared at each other, and at last Celestina said, "Good Lord, what's happening here?."Avoiding the graveled driveway, on which he was more likely to scuff his freshly polished loafers, he approached the house across the lawn, beneath the moon-sifting branches of a great pine that made itself useless for Christmas by spreading as majestically as an oak..The social worker's office once more. Rain tapping lightly at the window where Dr. Lipscomb had stared intently into the fog as he tried to avoid confronting the life-changing revelation that Phimie, speaking with the special knowledge of the once-dead, had shown him..Through the cacophony of shattering glass, splintering wood, and cracking plaster, Paul heard the hard roar of an engine, the blare of a horn, and suspected what must have happened. Some drunk or reckless driver had crashed at high speed into the parsonage.. "Paul," she said, "you've got a lovely house, but Celestina and Grace are doers. They need to keep occupied. They'll go stir-crazy if they don't stay busy. Am I right, ladies?." After mentally reviewing what he must say, after working up a nervous edge, he dialed the SFPD emergency number..If their relationship had not been limited to a single evening of passion, if they had not been of two worlds, if she had not been underage and therefore jailbait, they might have had an open romance, and then her death would have touched him more deeply..Sitting at the desk, Celestina phoned her parents again. She shook uncontrollably, but her voice was steady..Eventually, he settled on a mental image of a bowling pin as his "seed." This was a smooth, elegantly shaped object that invited languorous contemplation, but it did not tease his libido..By telephone, he had been prepared for this boy. Strange as it was to find a Bartholomew in their lives, given Enoch Cain's peculiar obsession, Tom nonetheless agreed with Celestina that the wife killer could have no way to know about this child-and could certainly have no logical reason to fear him. The only thing they had in common was Harrison White's sermon, which had inspired this boy's name and might have planted the seed of guilt in Cain's mind..Not one day in anyone's life, so her father taught, is an uneventful day, no day without profound meaning, no matter how dull and boring it might seem, no matter whether you are a seamstress or a queen, a shoeshine boy or a movie star, a renowned philosopher or a Downs syndrome child. Because in every day of your life, there are opportunities to perform little kindnesses for others, both by conscious acts of will and unconscious example. Each smallest act of kindness-even just words of hope when they are needed, the remembrance of a birthday, a compliment that engenders a smile-reverberates across great distances and spans of time, affecting lives unknown to the one whose generous spirit was the source of this good echo, because kindness is passed on and grows each time it's passed, until a simple courtesy becomes an act of selfless courage years later and far away. Likewise, each small meanness, each thoughtless expression of hatred, each envious and bitter act, regardless of how petty, can inspire others, and is therefore the seed that ultimately produces evil fruit, poisoning people whom you have never met and never will. All human lives are so profoundly and intricately entwined-those dead, those living, those generations yet to come-that the fate of all is the fate of each, and the hope of humanity rests in every heart and in every pair of hands. Therefore, after every failure, we are obliged to strive again for success, and when faced with the end of one thing, we must build something new and better in the ashes, just as from pain and grief, we must weave hope, for each of us is a thread critical to the strength-to the very survival-of the human tapestry. Every hour in every life contains such often-unrecognized potential to affect the world that the great days for which we, in our dissatisfaction, so often yearn are already with us; all great days and thrilling possibilities are combined always in this momentous day..Disbelieving his eyes, Junior reached across his body with his left hand and picked up the quarter. Although it had been lying in his right palm, it was cold. Icy.. "You know where it comes from," her mother said with a yawn that betrayed her exhaustion after a night with no sleep and too much drama..Lipscomb said, "We're only two and a half blocks from the best Armenian restaurant in the city. I'll dash over there, bring back some chilled bubbly and an early dinner, if you'll allow me." Friday brought Scamp again, all of Scamp, all day, every way, wall-to-wall Scamp, so on Saturday he hadn't enough energy to do more than shower..Licky did not take him into the roaster tower, but back to the barracks. From a locked room he brought out a small, soft, thick, leather bag that weighed heavy in his hands. He opened it to show Otter the little pool of dusty brilliance lying in it. When he closed the bag the metal moved in it, bulging, pressing, like an animal trying to

get free..Junior had thought most other policemen must consider Vanadium to be a loose cannon, a rogue, an outcast. Perhaps the opposite was true-and if it was, if Vanadium was highly regarded among his peers, he was immeasurably more dangerous than Junior had realized..The minister's threat had been forgotten, repressed. At the time, only half--heard, merely kinky background to lovemaking, these words had amused Junior, and he'd given no serious thought to their meaning, to the message of retribution contained in them. Now, in this moment of extreme danger, the inflamed boil of repressed memory burst under pressure, and Junior was shocked, stunned, to realize that the minister had put a curse on him!.As the fragrances of wet wool and sodden denim rose from her sweater and jeans, Agnes switched on the heater and angled the vanes of the middle vent toward Barty. "Honey, turn that other vent toward yourself.".He hesitated, because until the limited explanations he'd made to Celestina in San Francisco, he had never discussed his special perception with anyone except two priest counselors in the seminary. At first he felt uneasy, talking of these matters to strangers-as if he were making a confession to laity who held no authority to provide absolution but as he spoke to this hushed and intense gathering, his doubts fell away, and revelation seemed as natural as talk of the weather..So the practice of their lore and the teaching of it had become perilous. Those who undertook it were often those already outcast, crippled, deranged, without family, old-women and men who had little to lose. The wise man and wise woman, trusted and held in reverence, gave way to the stock figures of the shuffling, impotent village sorcerer with his trickeries, the hag-witch with her potions used in aid of lust, jealousy, and malice. And a child's gift for magic became a thing to dread and hide..At the end of the famous sermon, Celestina's father had wished to all well-meaning people that into their lives should fall a rain of benign effects from the kind and selfless actions of countless Bartholomews whom they would never meet. And he assures those who are selfish or envious or lacking in compassion, or who in fact commit acts of great evil, that their deeds will return to them, magnified beyond imagining, for they are at war with the purpose of life. If the spirit of Bartholomew cannot enter their hearts and change them, then it will find them and mete out the terrible judgment they deserve..Traumatized by the violence in her mother's bedroom, not fully aware of what happened to Wally, Angel had been tearful and anxious. A thoughtful physician gave her a glass of orange juice spiked with a small dose of a sedative, and a nurse provided pillows. Bedded down on two pillow-padded chairs, wearing a rose-colored robe over yellow pajamas, she gave herself as fully to sleep as she always did, sedative or not, which was every bit as fully as she gave herself to life when she was awake..He didn't want to risk marrying weapon and silencer here in the hall, where he might be seen. Besides, complications could arise from being splattered with Neddy's blood. Aftermath was disgusting, but it was also highly incriminating. For the same reason, he was loath to use a knife..Leaving three of the pats in the container, he carefully placed the fourth on the vinyl-tile floor..This morning, Damascus had left the house early, before Vanadium came downstairs, which was perfect for Junior's purposes. While the maniac cop was finishing his shave and shower, Junior crept upstairs to check his room. He discovered the revolver in the second of the three places that he expected it to be, did his work, and returned the weapon to the nightstand drawer in precisely the position that he had found it. Narrowly avoiding an encounter with Vanadium in the hall, he retreated to the ground floor. After some fussing over the most effective placement, he left the quarter and the luggage-just as Vanadium, the human stump, clumped down the stairs. Junior experienced an unexpected delay when the detective spent half an hour making phone calls from the study, but then Vanadium went into the kitchen, allowing him to slip out of the house and complete his work..Smiling in the fearless dark, she listened to the rhythmic breathing of a sleeping boy..The way one does research into nonexistent history is to tell the story and find out what happened. I believe this isn't very different from what historians of the so-called real world do. Even if we are present at some historic event, do we comprehend it-can we even remember it-until we can tell it as a story? And for events in times or places outside our own experience, we have nothing to go on but the stories other people tell us. Past events exist, after all, only in memory, which is a form of imagination. The event is real now, but once it's then, its continuing reality is entirely up to us, dependent on our energy and honesty. If we let it drop from memory, only imagination can restore the least glimmer of it. If we lie about the past, forcing it to tell a story we want it to tell, to mean what we want it to mean, it loses its reality, becomes a fake. To bring the past along with us through time in the hold-alls of myth and history is a heavy undertaking; but as Lao Tzu says, wise people march along with the baggage wagons.. "This meeting of the North Pole Society of Not Evil Adventurers is officially closed." Hound had taken him, had stood and seen his people beaten senseless, had not stopped the beating. Yet he spoke as a friend. Why? said Otter's look. Hound answered it.. "I don't just think so. And I don't just know it. I feel it, exactly like you feel all the ways things are. I'll bet you feel it, too." And the irony of ironies: With her talent deepening to a degree that she had never dared hope it would, with collectors responding to her vision to an extent she had never imagined possible, with her goals already exceeded, and with great vistas of possibility opening before her, she would throw it all away with some regret but with no bitterness if required to choose between art and Angel, for the child had proved to be the greater blessing. Phimie was gone, but Phimie's spirit fed and watered her sister's life, bringing forth a great abundance.. "What wound? Junior wanted to ask, but he recognized bait when he heard it, and he did not bite..Month by month during Barty's first year, Agnes's belief in his exceptional intelligence was only confirmed by his development. By the end of the second month of life, most babies will smile in response to a smile, and they are able to smile spontaneously in the fourth month. Barty was smiling frequently in his second week. In the third month, many babies laugh out loud, but Barty's first laugh came in his sixth week..IN NEED OF OIL, the hand crank squeaked, but the tall halves of the casement window parted and opened outward into the alleyway..Shopping for fashion accessories relaxed Junior. He spent a few hours browsing for tie chains, silk pocket squares, and unusual belts. Riding the up escalator in a department store, between the second and.. "I sure think so. I think she's everything. I tell her she's the moon and stars.

I'm probably spoiling her rotten." Mocked by the silvery ping-ting-jingle of the maniac detective emptying his ghostly pockets, Junior ran. The man, whom the others called Licky, led him out into a hot, bright morning that dazzled his eyes. Leaving his cell he had felt the spellbonds loosen and fall away, but there were other spells woven about other buildings of the place, especially around a tall stone tower, filling the air with sticky lines of resistance and repulsion. If he tried to push forward into them his face and belly stung with jabs of agony, so that he looked at his body in horror for the wound; but there was no wound. Gagged and bound, without his voice and hands to work magic, he could do nothing against these spells. Licky had tied one end of a braided leather cord around his neck and held the other end, following him. He let Otter walk into a couple of the spells, and after that Otter avoided them. Where they were was plain enough: the dusty pathways bent to miss them. On the back of the watch case, however, were the incriminating words of a commemorative engraving: To Eenie/Love/Tammy Bean. He stepped to the front door, which was framed by curtained side lights. He drew one of the curtains aside and peered out. If the detective believed that Seraphim had been raped, his natural desire to exact vengeance for his friend's daughter might motivate him to commit the relentless harassment that Junior had endured now for four days. "The princess is correct," he acknowledged, revealing that this hand was still empty. Then he reached to the girl and plucked the quarter from her ear. Their evenings together were comfortable bliss, though usually they just watched television, or he read to her. She enjoyed being read to: mostly historical novels and occasional mysteries. She thought of herself as a creative person, a capable and efficient and committed person, but she did not think of herself as a strong person. Yet she would need great strength for what lay ahead. When Frieda finished retching and passed out in a heap, Junior left her on the floor and immediately set out to explore her rooms. He had bribed a parking attendant to keep his Mercedes at the curb in a valet zone, in front of a nearby restaurant, so it would be instantly available when needed. He could also leave the car and follow Celestina on foot if she chose to stroll home from here. Barty grinned mischievously. "One of the places we visited today. Some big kids. They saw this scary movie, said they had to wash their shorts after." Knickknacks and mementos were not to be found anywhere in the house. And until now Junior had seen nothing hanging on the barren walls except a calendar in the kitchen. Ice bags. I almost laughed at his tendency to morbidness and self-dramatization. The living dead had not come to get him: just some rubber ice bags. When he held fast to his sanity, common sense eventually told him that the coin must have been left much earlier in the night, soon after he had set out for Victoria's house. In fact, in spite of the new locks, Vanadium must have stopped here on his way to see Victoria, unaware that he would meet his death in her kitchen—and at the hands of the very man he was tormenting. Now, after removing the four decks of cards from the pressboard packs in which they had come, Jacob lined them up side by side on the scarred maple top of the table. After nudging the door shut with his shoulder, Barty carried the sodas out of the kitchen and forward along the hall. Pausing at the livingroom archway, he said, "Uncle Jacob?" Apparently, he'd been drooling for a long time. Where his chin and throat were not sticky, a crust of dried saliva glazed his skin. A deeply troubled John Wayne while the delightful David Niven floated along overhead in a basket suspended from a huge, colorful hot-air balloon. THE SUN ROSE above clouds, above fog, and with the gray day came a silver drizzle. The city was lanced by needles of rain, and filth drained from it, swelling the gutters with a poisonous flood. Sitting on a stool at the counter, he ordered a cheeseburger, coleslaw, french fries, and a cherry Coke. Moving around the front of the station wagon, waving at his mother, reveling in her astonishment, Barty shouted, "Not scary! Since he knew where Celestina would be on January 12, there was no point in taking risks to find her sooner. He had plenty of time to prepare for their encounter, time to savor the sweet anticipation. She didn't hide the diagnosis from the family, but she delayed telling them the prognosis, which was bleak. Already, her bones were tender, packed full of mutated immature white cells that hindered the production of normal white cells, red cells, and platelets. The muffling fog quieted the city as much as obscured it, and the alley was surprisingly still. Many of the businesses were closed for the night, and as far as Junior could discern, no delivery trucks or other vehicles were parked the length of the block. "One of the four legs of the tower is dangerously fractured where it's seated into the underlying foundation caisson-". "Cancer," she whispered, and superstitiously reproached herself for speaking the word aloud, as though thereby she'd given power to the malignancy and ensured its existence. Sobbing desperately, he dropped the telephone handset on the secretary, seized the dishtowel. He wrapped the cloth tightly around the shattered stump, applying pressure to diminish the bleeding. "No. Charming," she disagreed. "There's a meaning to it. Everything has a meaning, dear." The coin stopped turning, pinched flat between the knuckles of the cops middle and ring fingers. He retrieved a box of Kleenex from the nightstand and offered it to his suspect. "Here." She leaned forward in her seat, and toward him, so he could see her more directly, and when she put one trembling hand against his cheek, his head dropped forward on neck muscles as limp as rags, his chin. But first, in early July, he stopped taking French lessons. It was an impossible language. Difficult to pronounce. Ridiculous sentence constructions. Anyway, none of the good-looking women he met spoke French or cared whether he did. It could only be made better by the presence of her parents. They had planned to fly down to San Francisco this morning, but late yesterday, a parishioner and close friend had died. A minister and his wife sometimes had duties to the flock that superseded all else. He did not answer Hound's question. Junior had made a mistake when he smashed the pewter stick into Vanadium's face after the cop was already unconscious. He should have bound the bastard and attempted to revive him for interrogation. Worrying is what mothers do best. Celestina was her mother, as far as Angel was concerned, and the child was not yet of an age to be told, and to understand, that she had been blessed with two mothers: the one who gave birth to her, and the one who raised her. The corroded casement-operating mechanism began to give way, as did the hinges, and the window sagged outward. Celestina had chosen to shelter the bastard boy, and in so doing, she had declared herself to be Junior's enemy, though he'd never done anything to her, not anything. She didn't deserve him,

really, not even one quick bang before the bang of the gun, and maybe after he shot Ichabod, he'd let her beg for a taste of the Cain cane, but deny her.. "She was a hero, just like you. I wanted you ... I wanted you to see her and to know her name. Perri Damascus. That was her name." In his right hand again, the real gun, loaded with ten hollow-point rounds, felt charged with supernatural power: to Bartholomew as a crucifix to Dracula, as holy water to a demon, as kryptonite to Superman.. "If I ever have trots, you'll know." And then in the Cheese voice: "CAN WE LISTEN TO THE BOOK TALK IN YOUR ROOM?". After arranging to have the gallery deliver his acquisition, Junior stopped in a nearby diner for lunch. The place specialized in superb heartland food: meat loaf, fried chicken, macaroni and cheese.. The following day, Wednesday, December 27, his mother drove him to the library, where he checked out two Heinlein titles recommended by the librarian: Red Planet and The Rolling Stones. Judging by his excitement, on the way home in the car, his response to previous mystery-novel series had been a pleasant courtship, whereas this was desperate, undying love.. What he saw next in the brochure wasn't the link that he sought, but it alarmed him so much that the three-fold pamphlet rattled in his hands. The reception for Celestina's show had been this evening, had ended more than three hours ago.. To Agnes, Jacob said, "Likely to be a sunnier fortune if the cards are bright and fresh, don't you think?". Because he genuinely liked women and hoped always to please them, always to be discreet and chivalrous and giving, Junior did as she wished, spinning a vivid account of the grisly vengeance he would take if ever Seraphim told anyone what he'd done to her. Vlad the Impaler, the historical inspiration for Brain Stoker's Dracula--thank you, Book-of-the-Month Club--could not have imagined bloodier or more horrific tortures and mutilations than those that Junior promised to visit upon the reverend, his wife, and Seraphim herself Pretending to terrorize the girl excited him, and he was perceptive enough to see that she was equally excited by pretending to be terrorized.. Once he had toured the exhibition, managing not to shudder openly, he tried to hang out within hearing distance of Celestina White, but without appearing to be listening with special intensity.. "So entertaining, I felt I should have paid for those seats. When the third machine starts whizzing coins at him, he bolts like a kid running a graveyard at midnight on a dare." Nolly laughed, remembering.. Neddy favored a quick greeting, two curt pumps, but Junior held fast after the handshake was over. He didn't grind the musician's knuckles, nothing so crude, just held on pleasantly but firmly. His intention was to confuse and further rattle the man, taking advantage of his obvious dislike of having his personal space encroached upon, in the hope that Neddy would reveal why he'd been watching Junior so intently from across the room.. Carrying the candlestick, he raced to the kitchen at the end of the short hall. The door stood open, but he had to enter the room to see Victoria slumped in one of the two chairs at the small dinette.
