Apparently some of Padawski's friends had the idea that the Chironian women were among the things that could be had for the taking on Chiron, and two of them had persisted in pressing lewd advances upon the two girls at the bar despite their being told repeatedly and in progressively less uncertain terms that the girls weren't interested. The soldiers, who had been drinking heavily, became angry and even more unpleasant, paying no attention to dour warnings from around the room. An argument developed, in the course of which Ramelly grabbed one of the women and handled her roughly. She produced a gun and shot him in the leg. There would probably have been no more to it than that if Wilson hadn't seized the gun and turned it on the Chironians who were about to intervene, at which point another Chironian had shot him dead from the back of the room..psychotic disregard for his or her personal safety..Whether already airborne or not, it will be coming. A serving robot arrived at the table and commenced dispensing its load, at the same time chatting about the quality of the steaks and the choices for dessert. Bernard turned to stare out of the window and think. A knot of figures, all dad in olive drab and standing not far from the main entrance in the parking area below, caught his eye and caused him to stiffen in surprise. They were wearing uniforms---U.S. Army uniforms. Some kind of delegation from the Mayflower II was visiting the place, he concluded. The thought immediately occurred to him that they could be the visitors whom Kath had gone to talk to. The house around her was another part of it. Chiron didn't want to let her be. It wanted her to be like it. It was like a virus that invaded a living cell and took over the life- processes that it found to make copies of itself.. "Hmph." Merrick waved a hand at the screen. "Doesn't have the academies. He'd need to do at least a year with kids half his age. We're not a social rehabilitation unit, you know." . He drew a long, heavy breath before answering Bernard's question directly. "But there can be no alteration of our resolution." . At that moment the emergency tone sounded simultaneously from both their communicators, and warning--bleeps and wails went up from places in the labyrinth all around. They looked at each other for a second. The noise died away as Colman fished his unit froth his breast. "She's tough, too. She knows what she can handle." . Colman grinned and stroked her hair. The theories currently favored on Earth attributed the domination of matter, as opposed to antimatter, in the universe to a one-part-per-billion imbalance in 'the reactions occurring in the earliest phase of

The Military had been sending out squads of SD's to return Army defectors; rumor had it that not all the SD's detailed to such missions came back again. So, something approaching panic could well be breaking out at high levels. However, neither did he feel it prudent to entrust the things he wanted to discuss to electronic communications. Veronica caught Celia's eye with a warning look..Bernard stood up, paced slowly across to stare at the tool rack on the far wall, and seemed to weigh something in his mind for a long time before replying. Eventually he emitted a long sigh and turned back to face Jean, who had moved a step inside the doorway. "We can still build it," he said. "But it doesn't quite work the way we thought then. Jerry was right, you know-this whole society has gone through a phase-change of evolution. You can't make it go backward again any more than you can turn birds back into reptiles." Bernard came a pace nearer. His voice took on a persuasive, encouraging note. "Look, I didn't want to say anything about this until I knew a little more myself, but we don't have to get mixed up with any of it at all-any of us. Kalens and the rest of them belong to everything we've heft behind now. We don't need them anymore. And besides, if you're right, then I'd have thought the best place to stay would be right here-all mixed up together with the Chironians. That way nobody's likely to start throwing any big bombs around, right?" He turned his head to grin briefly at Jean. "I think Jerry made my point."..Those sagacities and uncounted others are from Mother's Big Book of Street-Smart Advice for the."Of course they are. Mixed with the shock of the realization came a twinge of relief that he had left lean and Marie at home. Explaining this was going to require some delicate handling. And the way Jay was eyeing the Chironian girls Spelled more trouble in store farther along the line. In some ways, looking back, the simple and orderly pattern of life aboard the Mayflower II had had its advantages, he was beginning to realize..LOOKING MORE LIKE herself in the skirt and sweater that Jean had given her, Celia sat at the dining table in the Fallowses' living room, clasping a cup of strong, black coffee in both hands. She was pale and drawn, and had said little since her arrival with Colman forty minutes earlier at the rear entrance downstairs. "Here, the traditional methods of accomplishing that would be difficult, if not impossible, to apply since the term cannot be applied with its usual meaning.
