He wore a flowered silk shirt open to the waist, exposing his bony hairless chest, and tight white pants that might as well have been made of Saran Wrap. He didn't say anything, just let his eyebrows rise inquiringly as his eyes flicked down, then up. The crowd still thinks this is part of the set, and they love it. A SUDDEN CHANGE in the colors and format of one of the displays being presented around him in the monitor room of the Drive Control Subcenter caught Bernard Fallows's eye and dismissed other thoughts from his mind. The display was one of several associated with Number 5 Group of the Primary Fuel Delivery System and related to one of the batteries of enormous hydrogen-feed boost pumps located in the tail section of the vessel, five miles from where Fallows was sitting. edited by Edward Ferman. Guilt and her pain tore at me. I chased through my head for something to comfort her. "Mandy, I?". As the four of us stood there staring at him, he raised his eyes still higher, and their blackness seemed to intensify, to throw forth fire. It was the briefest of illusions, for a moment later he turned, climbed back into his palanquin and clapped his hands. We stared after it as the four black bearers bore it away. Sirocco came through on the compack a few moments later, and Colman summarized the situation. The audacity of the idea appealed to Sirocco immediately. "We'd have to handle it ourselves. There isn't enough time to involve Brigade, but we could pin down those guys on the other side while you went in, and roll a barrage in front of you to clear obstacles." He was referring to the Company controlled robot batteries set up to the rear, below the crest line of the ridge. The design could not feasibly be modified at this late stage. Too many things would

have to be thought out again from the beginning, and such a task would require decades. And yet, nothing comparable to SP3 is anywhere near as advanced a stage of design at the present time, let alone near being constructed. The opportunity is unique and cannot, surely, be allowed to pass by. But at the same time we cannot afford the delay that would be needed to take advantage of that opportunity.
